

BATTISA NALLAH MINOR IRRIGATION PROJECT

Justification of land for Canal & Approach road

It is to certify that the proposal submitted for diversion of 91.202 Ha forest land for Battisa nallah Project is complete with submergence, dam line & canal portion in forest area.

So there will be no more need of forest land for canal & approach land because in component of canal off take the required land needed for canal purpose has been considered and existing village road part will be useful for dam approach.
