S. No	Query	Reply
1	Not complied. The proposal is submitted for widening of existing road. But copy of earlier diversion proposal status has not been submitted yet in the proposal.	Because this road is constructed before 1980, so only widening proposal is submitted. Attached GT Sheet 1968, in this GT Sheet road has shown
2	Partial complied. UA submitted that the KML file based on revenue sheets but as per uploaded KML file left side and right patch are uploaded but non forest area has not been shown in the KML and why the existing road is not taken in the proposal justification required.	This road is constructed before 1980, only widening proposal is taken in the KML The existing road is non forest area and also marked in revenue Map. So it has not been taken in KML.
3	Not complied. Area in the forest not matched with departmental digital forest boundary	Existing road width boundary is varies so the average width has been taken in the proposal. Map attached
