Metres 1000 500 0 1 2 3 4 5 6 7 Kilometres
2 cm to 1 km

HEIGHTS & CONTOURS IN METRES

CONTOUR INTERVAL 20 METRES

These features are shown in blue where they generally occur in water.
 Coloured areas are coloured yellow.
 The exterior boundaries of areas of Reserved or Protected Forests are shown by green ribands.

Contours are approximate.
 A relative height, 'do', represents the approximate height in metres between the top and bottom of a contour slope.
 Wooded areas are coloured green. Scattered trees and other vegetation are in green, but prominent surveyed trees are in black.

The triangulated heights and contours in this sheet have not been adjusted to the heights of the spirit-levelled bench-marks and may not be strictly in accordance with them.
 The kilometre stone numbers along roads, railways and canals are shown in slant type, e.g., '5' whereas milestone numbers are shown in upright type, e.g., '5'.

The area adjoining the Brahmaputra River is liable to change owing to continual fluctuation in the course of the river and remains flooded during rainy season.
 All unmetalled roads inside the Tea Gardens are motorable in dry season. Permission to use these roads is required from the Tea Garden authorities.
 Boundaries of Reserved Forests have not been shown for want of information.

The alignments of the subdivision boundaries, shown on this sheet, are based on the information supplied by the Deputy Director of Surveys, Assam, but have yet to be verified.
