Site suitability certificate of Compensatory afforestation area identified in Guderupalem RF

The double the degraded area towards Compensatory Afforestation has been identified in Guderupalem RF in lieu of the proposed diversion of Forest land in Seetharampuram RF for up gradation of NH 167 B from Porumamila to CS puram. This area is a compact block and is suitable in management and protection point of view. The identified CA area is suitable for raising of tree species.

District Forest Officer,
SPSR Nellore.
