## **SUMMARY OF PROJECT**

OIL INDIA LIMITED (OIL), a Government of India Navaratna enterprise, is currently engaged in exploration, production and transportation of hydrocarbons primarily in Upper Assam, South-Eastern part of Arunachal Pradesh and Mizoram in the North Eastern part of the country.

2.0 The Ningru Petroleum Mining Lease (PML) block covers 427.058 sq km in Changlang and Namsai districts of Arunachal Pradesh. The same was formally granted to OIL by Govt. of Arunachal Pradesh on 04.05.2018.

3.0 Before expiry of the Ningru PML in Nov'2003, OIL applied for renewal of the PML to MoP&NG in 2002 as recommended by Govt. of Arunachal Pradesh. Though MoP&NG accorded its approval on the re-grant of the PML in the year 2004, the same could not be formally granted by Govt. of Arunachal Pradesh in absence of prior approval under Forest (Conservation) Act, 1980.

4.0 OIL accordingly submitted its Forest Clearance proposal which was granted by MoEF&CC on 26.07.2017 and consequently, the PML was formally granted by Govt. of Arunachal Pradesh on 04.05.2018 referred above.

5.0 As per Condition No. (xiii) of Forest Clearance granted by MoEF&CC vide letter dated 26.07.2017, Govt. of Arunachal Pradesh's letter No. FOR-14-8/Cons/2003/Part-I/1081-86 dated 22.08.2018 as well as Clause No. 7 of the formal grant of PML dated 04.05.2018, OIL needs to submit Forest Clearance proposal for regularisation of 36.142 ha of forestland where OIL drilled few wells without any Forest Clearance.

6.0 The subject proposal is accordingly towards regularisation of Forest Clearance against the forestlands which were broken by OIL for drilling few wells as referred above.

7.0 The said wells were drilled during 1987-1993 breaking 36.142 ha of forestland as above that included land for the plinths for the wells as well as their approach roads. However, over the years since late eighties as above, many part of the said approach roads now become major public roads. Further, plinth areas of few of the wells also got shrunk because of upcoming of habitations, establishments, etc. and thereby the effective area now stands at 34.508 ha against original 36.142 ha as detailed at para. 9.0 below.

8.0 Accordingly this proposal covers for regularisation of 34.508 ha of forestland as per Condition No. (xiii) of the Forest Clearance dated 26.07.2017 and Clause No. 7 of grant of PML by Govt. of Arunachal Pradesh on 04.05.2018 referred above.

9.0 Once regularised, few additional wells will be drilled as well as installations will be established in these locations as under –

Sl. No.	Location Name (Well No.)	Original Area	Revised Area	Difference	Additional well(s)/ Production Installation(s) planned from same location	Remarks
		(Ref. para. 7.0 above) In hectare				
1	KUB (KMC-2)	5.372	5.371	0.001	-	Well Nos. KMC-2, KMC-13 and 1(one) Production Installation in same plinth area
2	KUAK (KMC-13)					
3	KUF (KMC-5)	2.781	2.717	0.064	KUAY	-
