

TO WHOM IT MAY CONCERN

Site suitability certificate of CA mentioning proposed CA site.

It is certified that the site selected for compensatory Afforestation at Comppt.30/k Zishnard against the forest land diverted under FCA case of construction of Tourist Facilitation Centre and Security Cabin at Daksum is degraded land and needs to be raising vegetation there. The soil is rich in organic matter and the site selected has adequate drainage. The gentle slope towards north east direction with altitude of 4000 mtr above sea level is favourable for raising the plantation.
