ಉಪ ಅರಣ್ಯ ಸಂರಕ್ಷಣಾಧಿಕಾರಿ,  
ವಿಜಯಪುರ ವಿಭಾಗ, ವಿಜಯಪುರ.

## **FORMAT-A**

### **CA LAND SUITABILITY CERTIFICATE UNDER VAN (SANRAKSHAN EVAM SAMVARDHAN) ADHINIYAM 1980**

In compliance of the procedure established for diversion of forest land for non-forest purpose through the Van (Sanrakshan Evam Samvardhan) Rules 2023 and guidelines framed under the Van (Sanrakshan Evam Samvardhan) Adhiniyam 1980, the following is certified.

1. The non-forest land parcel(s) shown in the table below proposed by National Highways Authority of India (User Agency) for raising Compensatory Afforestation (CA) in forest land diversion proposal is as below :
  - a. Request for issue of Suitability certificate for the identified CA land in your division for the Proposed National Highway Authority of India (NHAI), Bengaluru-Proposal No. FP/KA/ROAD/49295/2020.

For the above mentioned project (National Highways Authority of India Regional office Bangalore) total area of 11.00 Hectare of forest land is required for diversion. The below said Non Forest CA land parcel(s) are suitable for raising Compensatory Afforestation. The areas available in Vijayapura Territorial Range of Vijayapura Division have been inspected by me on 17/08/2024.

2. The said non-forest CA land parcels are suitable for raising Compensatory Afforestation in accordance with the Government of India FC Guidelines F. No. FC-11/61/2021-FC dated 03-11-2023 read with general FC Guidelines, and in case of Private Party User Agency, further as per Government of Karnataka Order No. FEE 82 FLL 2016 dated 31-08-2016.
3. The KML Files(s), Topo Map(s), Geo-referenced of all corners of the proposed land parcel(s) have been uploaded by User Agency in PART-I of the proposal.

#### **Additional Remarks :-**

- I. The proposed areas are revenue lands and the status of the land as per RTC Column no: 9 is shown in below table.
- II. The proposed areas for CA Land are older plantation areas. The major species found here area Neem, Ficus, Pongamia etc. Plantation activities were carried out by forest wing of KBJNL, Almatti about 5 years back and there is chance to increase canopy density further.
- III. The proposed area have wild animals like hispid hares, Indian Fox, Jackal, Snakes, and different types birds like Painted stork, etc.
- IV. These proposed lands are slightly undulating, and slightly rocky areas with murrum soil.
- V. The temperature of the proposed CA lands is 16<sup>0</sup> minimum and maximum 44<sup>0</sup> Celsius. The average Annual rainfall here is 450mm to 550mm. Annual Rainy days varies from 20-30 days. The annual rainfall variation in the district is marginal from place to place. The district witnesses drought frequently.

to be cont....

- VI. The proposed CA lands of Vijayapura range are near to Vijayapura City. On one side of the proposed land there is historical Bhutnal Lake built in the period of 19<sup>th</sup> century. It is the main source of drinking water to Vijayapura City. Every year this tank is filled with water from Alamatti reservoir. This lake also act a as a water source for upcoming plantations.
- VII. The Vijayapura city has a population of more than 5 lakh and also growing rapidly, but there are no dedicated green belt area. The proposed CA land areas will act as potential lung space to the city.
- VIII. Concerned areas are not included in any section-4 proposed area or in statutory forests proposed list and it is purely a revenue land.
- IX. There is no major encroachments in the proposed CA land.
- X. As the forest area in Vijayapura District is very less, that is to the tune of 0.17 percent. Hence if these proposed land parcels transferred in the name of forest as CA lands, it will contribute to the increase in forest area/cover of Vijayapura District.

Sl No	Taluk & Hobli	Village	Survey Number	Extent proposed A-G	Extent proposed (Ha)	Ownership as per R T C column : 9	GPS Reading (Centre point)	Remark about the adjacency of the proposed land parcel to a notified forest
