राजस्थान सरकार

कार्यालय सहायक खिन अभियन्ता, खान एवं भू-विज्ञान विभाग, रूपवास जिला भरतपुर ।

क्रमांक:-सखअ/रूप/रि.शा/डायवर्जन/2023/290

दिनांक:- 6 .19.2023

श्रीमान अतिरिक्त मुख्य वन संरक्षक आरण्य भवन, जयपुर।

विषय:- Diversion of 189.2515 ha. of forest land in favour of DMG, Rajasthan in Pahadpur Block A & B for mining and generation of employment and earning of revenue for Government in Bharatpur District in the State of Rajasthan-(Proposal No- FP/RJ/MIN/ 149012/2021)

प्रसंगः — आपका पत्रांक एफ16(माइनिंग) / 2021 / एफसीए / प्रमुवसं / 7425 दिनांक 06-09-23 । महोदय,

उपरोक्त विषयान्तर्गत निवेदन है कि प्रासंगिक पत्र के साथ संलग्न सहायक महानिरीक्षक वन, भारत सरकार, पर्यावरण, वन एवं जलवायु परिवर्तन मंत्रालय, नई दिल्ली के पत्रांक 8-16/2021-एफ्(Vol) दिनांक 05.09.2023 में उल्लेखित अतिरिक्त सूचनाएं चाही गई जिसमें से इस कार्यालय से सम्बन्धित बिन्दु i, ii, iv की सूचना निम्नानुसार है—

- (i) 398.0085 हैक्टेयर वन क्षेत्र के डायवर्जन के सम्बन्ध में भारत सरकार, पर्यावरण, वन एवं जलवायु परिवर्तन मंत्रालय, नई दिल्ली के पत्रांक 8—14/2021—एफसी दिनांक 11.03.2022 द्वारा जारी स्वीकृति की शर्तों की अनुपालना रिपोर्ट परिशिष्टि—1 संलग्न है।
- (ii) बंध बारैठा वाईल्ड लाईफ सेंचुरी के ईको सेंसेटिव जोन में आने वाले 15.3 हैक्टेयर क्षेत्र एवं प्रस्तावित 44 हैक्टेयर क्षेत्र की केएमएल मूल क्षेत्र से हटाया जाकर परिवेश पोर्टल पर 189.2515 हैक्टर की केएमएल अपलोड की गई, जिसकी सी.डी. संलग्न है।
- (iv) माननीय उच्च न्यायालय राजस्थान जयपुर की बेबसाईट पर एसबीसीडब्ल्यूपी संख्या 8028/2004 की वर्तमान स्थिति ऑनलाईन स्टेटस देखा गया। जिसके अनुसार आगामी तिथि 10.03.2022 प्रदर्शित है। प्रति संलग्न है।

स्वेन्द्र चौहान) सहायक खनि अभियन्ता, रूपवास, भरतपुर। दिनांक:— .10.2023

क्रमांक:-समसंख्यक /

प्रतिलिपि निम्न को सूचनार्थ एवं आवश्यक कार्यवाही हेतु प्रेषित है।

श्रीमान उपवन संरक्षक भरतपुर।

2. श्रीमान अतिरिक्त निदेशक, खान(पर्यावरण एवं विकास) खान एवं भू-विज्ञान विभाग, जयपुर।

सहायक खनि अभियन्ता, रूपवास, भरतपुर। REPORT TO STAGE-II FOREST CLEARANCE CONDITION 398.0085 HACTARE FOREST LAND IN PAHARPUR BLOCK A & B VILLAGE PAHARPUR TEHSIL ROOPWAS DISTRICT BHARATPUR (RAJASTHAN) (ONLINE PROPOSAL NO. FP/RJ/MIN/125714/2021)

MOEFCC'S Letter No. - 8-14/2021_FC Dated 11.03.2022

A: Conditions which need to be complied prior to handing over of forest land to user agency by the State Govt:

| S.N. | CONDITION | COMPLIANCE |
|------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| i. | The State Government shall ensure that a detailed cluster Mining Plan shall be obtained prior to handover of forestland which will incorporate the scope of common green infrastructure for all subleases to optimize resources and minimize ecological impact. Necessary details of mining will be obtained, including total mining leases in the cluster, area and location of each mining lease, the strip around the mining leases to be used as safety zone, entry and exit points of mining lease and transportation of mined material, the area meant for stocking of mined material, the areas for dumping overburden, area left out of mining operations for reasons of slope, soil and water conservation etc. along with appropriate mitigative measures for the conservation of forest area and wild life. A copy of the same may be furnished to this Ministry within one month of receipt. | Approved cluster Mining Plan and list of mining leases with details uploaded by the User Agency. (Annexure-1) (Pages 1 to 30) |
| ii. | The State Government shall ensure that the compliance of Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 has been completed in accordance with the relevant Rules and Guidelines issued by the MOEF&CC in this regard, before handing over of forest land to the user agency; | FRA Certificate issued by District Collector Bharatpur (Copy Uploaded). (Annexure-2) (Pages 31 to 36) |
| iii. | The State Govt. shall ensure that the User Agency will obtain necessary Environmental Clearance, Wildlife Clearance, CRZ Clearance, if required; | Cluster Environment clearance has been obtained by user agency and individual Environment clearance obtained by Lessees (Copy Uploaded). Area does not falls in notified Wildlife Sanctuary and Eco Sensitive Zone, So Wildlife Clearance not required. (Annexure-3) (Pages 37 to 211) |
| v. | The State Government shall upload the KML files of the diverted area and the sites identified for compensatory afforestation in the E-green Watch portal, before handing over forest land to the user agency. | The state of the s |
| genc | onditions which need to be complied after have by the State Govt.: | |
| | Legal status of the diverted forest land shall remain unchanged; | Undertaking has been submitted (Annexure-4) (Page 212) |
| | The State Govt. shall ensure that Compensatory | Reply required at the level of DCF. |

1 of 4 | Page

| | Afforestation over the identified area shall be raised within a period of three years with effect from the date of issue of Stage-II approval and maintained for ten years thereafter in accordance with the approved plan by the State Forest Department from the funds provided by the user agency | |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| iii. | The State Govt. shall ensure that the area allowed to be handed over to Forest Department vide Rajasthan Govt. order P02(17)raj/3/08 dated 08.02.2008 and thereafter notified under the provisions contained in Section 29 of the Rajasthan Forest Act, 1953 which is earmarked Compensatory Afforestation shall not be used for any other purpose. | Reply required at the level of DCF. |
| iv. | The State Govt. will keep a proper record of the area being used for Compensatory Afforestation against present proposal and ensure that the said area is not proposed against any other diversion proposal in future; | Reply required at the level of DCF. |
| v. | The State Government shall ensure that the environment and water management measures to be adopted during mining and mine reclamation as per the approved Mining Plan are undertaken in a timely manner, and included in the Annual Compliance Report. The User Agency shall submit the Annual Compliance Report in respect of the stated conditions to the concerned Integrated Regional Office and to this Ministry every year regularly; | Approved Mining Plan of Leases Uploaded. Undertaking has been submitted. (Annexure-5)(Page 213) |
| vi. | The State Government shall ensure that the plantation in safety zone and at other designated places in around the proposed area may be carried out under the supervision of expert institutions, like AFRI, Jodhpur to ensure successful. The fencing, protection and regeneration of the safety zone area shall be done appropriately as per existing rules thereunder; | Undertaking has been submitted. (Annexure-6) (Page 214) |
| vii. | Period of diversion of the said forest land under this approval shall be for a period co- terminus with the period of the mining lease proposed to be granted under the Mines and Minerals (Development and Regulation) Act, 1957, as amended in 2015 and the Rules framed there-under. However, the status will be reviewed by the FAC after 20 years to consider remaining availability of sandstone in the proposed forest diversion area and further protective/reclamation measures to be taken; | (Page 214) |
| viii. | The State Govt. shall ensure that the State Forest Department will implement the approved Integrated Wild Life Management Plan for the Sanctuary area in 500m width on the periphery of the Sanctuary towards Blocks A and B, including development of the buffer area and establishment of a Wildlife Rescue Centre at a suitable location. | approved by the Chief Wildlife Warden Jaipur. |
| ix. | The State Government shall ensure that smal Naalas/anicuts in Bansi Pahadpur A and B blocks car be used as garland drains to provide / recharge wate into Bandh Baretha Dam. All natural/man-made existing water bodies including village ponds shall be conserved and protected by user agency and no hindrance shall be caused to obstruct flow of water in | flow will be obstruct by Lessees/User Agency. Mines and Forest Department will be supervised. Undertaking has been submitted. (Annexure-8) (Page 216) |

| | such water bodies. State Govt. also ensured that the user agency may carry out the soil and moisture conservation activities on the banks to sustain water flow in the streams and the water streams in the diverted forest land shall be protected by the user agency in supervision of State Forest Department; | |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| x. | The State Government shall ensure that at least 10% of the District Mineral Foundation Trust Fund may be utilized for Tree Plantation on suitable sites, e.g. road side, around water bodies, etc. in the District (first preference in Banshi Pahadpur area) during the lease period under the supervision of State Forest | For utilization Tree Plantation, 10% amount of District Mineral Foundation Trust Fund approved by Governing Council Bharatpur. DCF Bharatpur appointed as executive agency for same work. Meeting minutes uploaded. (Annexure-9)(Page 217-219) |
| xi. | The State Govt. shall ensure that the user agency shall explore the possibility of translocation of maximum number of trees identified to be felled and any tree felling shall be done only when it is unavoidable and that too under strict supervision of the State Forest Department, and the User Agency will obtain permission for felling of trees as per applicable court orders/Forest Act/Rules/Guidelines. | Complied, Undertaking has been submitted. (Annexure-10)(Page 220) |
| xii. | The State Govt. shall ensure that the constituted District Task Force on illegal mining shall meet at least once in three months and review that adequate action has been taken to prevent illegal mining on lands outside the approved mining leases in the Banshi Pahadpur area. | Undertaking has been submitted. Meeting minutes uploaded. (Annexure-11)(Pages 221 to 227) |
| xiii. | The State Govt. and the user agency shall ensure that the mining may be carried out in a phased manner after taking due care for reclamation of the mined over area. The concurrent reclamation plan as per the approved mining plan shall be executed by the User Agency from the very first year, and an annual report on implementation thereof shall be submitted to the Nodal Officer, Forest (Conservation) Act, 1980, in the concerned State Government and the concerned Integrated Regional Office(IRO) of the Ministry. If it is found from the annual report that the activities indicated in the concurrent reclamation plan are not being executed by the User Agency, the Nodal Officer or the Regional Officer, IRO may direct that the mining activities shall remain suspended till such time, such reclamation activities area satisfactorily executed | |
| xiv | | |
| xv. | The State Govt. shall ensure that no labour camp shall be established on the forest land and the User Agency shall provide fuels preferably alternate fuels to the labourers and the staff working at the site so at to avoid any damage and pressure on the nearby forest areas | No labour camps established in the fores Land by the Lessees. Undertaking has been submitted. (Annexure-14) (Pages 230) |
| xvi | | (Annexure-15) (Pages 231 to 245) |

| | pillars, each pillar inscribed with the serial number, DGPS coordinates, forward and backward bearings and distance from adjoining pillars etc; | |
|--------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| xvii. | The State Govt. and the user agency shall ensure that no residential or labour colony shall be constructed over forest land; | No residential /labour colonies will be constructed in forest land. Undertaking has been submitted. (Annexure-16) (Page 246) |
| xviii. | The State Govt. shall ensure that the forest land proposed to be diverted shall under no circumstances be transferred to any other agency, department or person without prior approval of the Central Government and the layout plan of the proposal shall not be changed without the prior approval of the Central Government; | As per original proposal and uploaded Cluster Mining Plan, Mining Department has delineated plots and E-auctioned for granting mining leases. After forest diversion, 41 Mining Leases were sanctioned and 01 LOI issued to different persons/firm by Mining Department. Undertaking has been submitted. (Annexure-17) (Page 247) |
| xix. | The State Govt. shall ensure that no damage to the flora and fauna of the adjoining area shall be caused; | Undertaking has been submitted. (Annexure-18) (Page 248) |
| xx. | It may please note that violation of any of these conditions will amount to violation of Forest (Conservation) Act, 1980 and action would be taken as prescribed in para 1.21 of Chapter 1 of the Handbook of comprehensive guidelines of Forest (Conservation) Act, 1980 as issued by this Ministry's | Undertaking has been submitted. (Annexure-19)(Page 249) |
| xxi. | The State Govt. shall ensure that the user agency shall comply all the provisions of the all Acts, Rules, Regulations, Guidelines, Hon'ble Court Order (s) and NGT Order (s) pertaining to this project, if any, for the time being in force, as applicable to the project. | Undertaking has been submitted (Annexure-20) (Page 250) |

Place: Roopwas District Bharatpur

Yours Faithfully,

Assistant Mining Engineer Roopwas Distt. Bharatpur

CLUSTER MINING PLAN

(Submitted under Rule 29 of RMMCR, 2017 for forest diversion area)

OF

PAHARPUR SANDSTONE MINE (BLOCK A & B)

VILLAGE- PAHARPUR

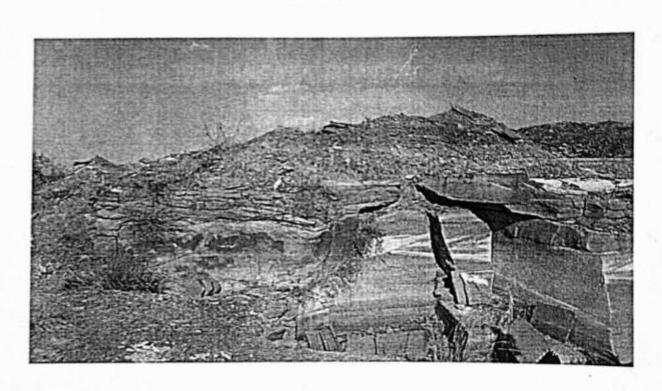

TEHSIL- ROOPWAS

DISTRICT- BHARATPUR

STATE- RAJASTHAN

TOTAL LEASE AREA- 398.0085 Hect. (FOREST)

LEASE PERIOD 50 YEARS

User Agency

User Agency

Assistant Mining Engineer, Roopwas Department of Mines and Geology (Rajasthan)

CERTIFICATE

- It is certified that the provisions of Mines Act, Rules and Regulations made there
 under have been observed in the Simplified Mining Scheme Including Progressive Mine
 Closure Plan for Paharpur Sandstone Mine, over an area (Block A & B) of 398.0085 Hect
 for mineral Sandstone near Village- Paharpur, Tehsil- Roopwas, District- Bharatpur,
 State- Rajasthan, and wherever specific permissions are required, the lessee/applicant
 will approach the Director General of Mines Safety. Further, the standards as prescribed
 by DGMS in respect of miner's health will be strictly implemented.
- 2. The Cluster Mining Plan for Paharpur Sandstone Mine, over an area (Block A & B) of 398.0085 Hect for mineral Sandstone near Village- Paharpur, Tehsil- Roopwas, District- Bharatpur, State- Rajasthan, and the lessee/ applicant complies all the statutory Rules, Regulations; Orders made by the Central Government or State Government, Statutory organizations, Court etc. and have been taken into consideration. Wherever any specific permission is required, the lessee will approach the concerned authorities.

INTRODUCTION

The Cluster mining plan for sand stone Mines (Delineated plots) near village – Paharpur, Tehsil- Roopwas, District- Bharatpur (Raj.) has been prepared by Assistant Mining Engineer Roopwas, Department of Mines & Geology Government of Rajasthan for fulfillment of Rule 29 (10) & 29 (5) (vi) of R.M.M.C.R., 2017.

The plots are delineated in forest area for e-auction for mineral concession. The area of Delineated plots varies from 4 to 15 Hectares. Total applied area for diversion is 398.0085 Hectare. After completion of the formalities, delineated plots will be auctioned and Leases will be granted for the period of 50 Years.

General Information about Forest Area Block A&B

(a) Name and address of user agency:-

Assistant Mining Engineer, Roopwas

District- Bharatpur (Rajasthan)

E-Mail ID- ame.roopwas@rajasthan.gov.in

(b) Status of the area:-

Forest Land Block A & B Total area: 646.56 hac.

Applied area for diversion: 398.0085 hac.

Delinated Area:-369.2986 hac.

Plantation Area:- 12.9191 hac.

Approach Road: - 4.5563 hac.

Safety zone area:- 3.9095 hac.

Dumping area:- 7.3250 hac.

Location map of the applied area for diversion for Mining Leases

a) Name of the Mineral: - Sandstone

The Delineated area have been shown in Plate No. 1 of Mining Plan.

| Deta | Details of the mining area | | or W. shoot | C.T. sheet Khasra | | Area | Period |
|---------|----------------------------|------------------------|-------------------------------------|----------------------------------------|--------|--------------------------------------|------------|
| Near | Tehsil | Dist. & State | G.T. sheet Khasra No. No./ Plot No. | | land | | |
| Village | | | | Block A-1 to 10 Block B- 1 to 60 | 1.0100 | 113.6950+284.3135 Total- 398.0085 | 50 Year |
| | Roopwas | Bharatpur Rajasthan | | | | | |

(d.) Infrastructure Facilities:-

- Police station The nearest police station is Rudawal at a distance of 6.31 km towards NW direction from lease area.
- Post Office- The nearest Post & Telegraph Office is Paharpur 2.
- Medical Facilities- Nearest Dispensary is at village Paharpur at a distance of 3. 1.25 km.
- Education Facility- Up to Secondary school facility is available at Paharpur at a 4. distance of 1.25 km
- Availability of water The Ground water table is 25m (in rainy season) to 40m 5. (in Dry Season). The drinking water can be brought from the wells of nearby village.
- Electricity The Electric Line passes outside the Delineated Plots area. 6.
- Mode of Transport of Mineral -Railway transportation facility also available at 7. Paharpur. Mineral will be transported by truck/Dumper from mine site to riico area bayana etc.
- River/ Canal: There is no river/canal passing through the area or nearby the 8. area.
 - Other relevant information:- Banking and all other facilities are available at 9. Rudawal/Roopwas.

GEOLOGY AND EXPLORATION

a) Physiography & Drainage: - The M.L area falls in G.T. sheet No. 54 F/5 Lease area is located 1.00 Km. North east of village Paharpur. The area for which Simplified Mining Scheme is prepared is Plain area. The Mining lease area occupied by sandstone and negligible quantity of Alluvium. The highest RL of the area is 261.36 mRL and lowest RL of the area is 205.13 mRL. The level difference is 56.23mtr. General drainage pattern is North Eastern side of the Mining Lease area. There is reserved forest in the lease area.

(b) Climate

The area is characterized by semi arid type with an average annual rainfall about 675 mm. which is mainly, received during June to September. The area belongs to Semi Arid zone.

Minimum Temp - Varies from 3.5° to 5° C

Maximum Temp- Varies from 43° to 46° C

(c) Regional Geology: Almost the entire northern part of the district is covered by alluvium, with few isolated hills of schist & quartzites belonging to Aravalli & Delhi Groups.

Geologically Bharatpur district comprises of rocks belonging to Delhi Super Group and Vindhyan Super Group. Stratigraphic succession of the rock units of Bharatpur region is given below:

| Qu | atemary | Soil & Alluvium | |
|-------------|----------------|-------------------------------------------------|--|
| Vindhyan | Bhander Group | Dholpur Shale | |
| Super Group | Similar Group | Upper Bhander (Maihar) Sandstone | |
| Delhi Super | Ajabgarh Group | Quartzite, carbonaceous phyllite, impure marble | |
| Group | Alwar Group | Quartzite, gritty quartzite | |

The Pre Delhi rocks include schists, Phyllites, quartzite and highly altered basic rocks (probably Volcanics). The Delhi Super group is characterized by a thick pile of conglomerate - quartzite assemblage of Alwar Group, and lower part of the Raialo Group, basic volcanics and quartzite inter beds of the upper part of Raialo Group, arenaceous rocks of weir formation and phyllites and shales of Kushalgarh formation of Ajabgarh Group. During the first phase of Delhi orogeny the Bayana sub-basin is

reported to have suffered northerly monoclinal tilting. Resulting in very open monoclinical fold with NW-SE to WNW- ESE axial trend superimposed in the limb of cartier folds.

earlier folds.

Ajabgarh group dis-confirmably overlies the Alwar group comprising litho assemblage of carbonaceous shale, phyllite ferruginous quartzite & white quartzite. Nature of contact between Alwar and Ajabgarh groups is not clear though it's observable near village between Alwar and Ajabgarh groups is not clear though it's observable near village Hathori. Milky white, grey and pink quartz veins and also the jasper veins are the abundant post Delhi intrusive of the area. These are either along the regular joint planes, abundant post Delhi intrusive of the area. These are either along the regular joint planes, abundant primary veins occupy the irregular fractures or in the Form of gash veins. In places, quartz veins occupy the tensional fractures in the hige zone and in other places they are cofolded with the primary bedding. The Delhi Super Group sedimentations have taken place in the coastal environment of unstable shelf, characterized by intermittent vertical tectonics. Vindhyan environment of unstable shelf, characterized by sand stone and shales etc, which are exposed in the north eastern part of the district in Rupbas Tehsil. Bhander sandstone is underlain at places by light green to olive green shales

(d) Local Geology:

Paharpur area is covered by alluvium, with Undulated outcrops of Sandstone.

Geologically rocks of the area belonging to Bhander Group of Vindhyan Super group.

Stratigraphic succession of the area is given below:

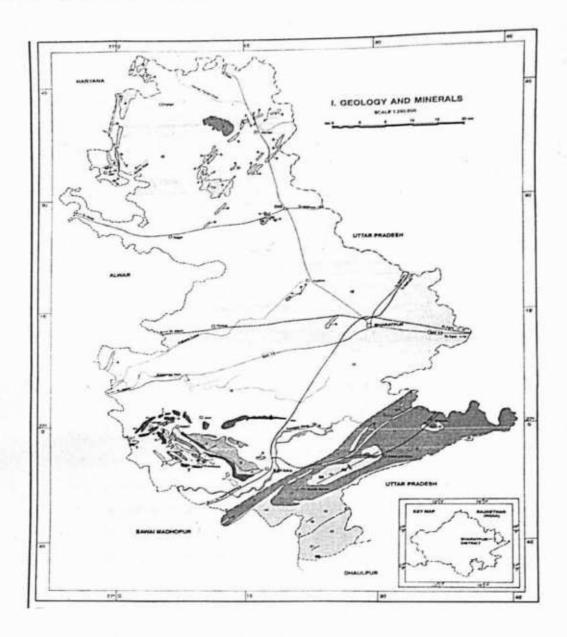

| | Soil & Alluvium |
|---------------------------|-----------------|
| Quartenary | Dholpur Shale |
| indhyan Super Bhander Gro | |

Vindhyan Super group of rocks assemblage is represented by sand stone mainly, which are exposed in the area as undulated outcrops in the area.

Sandstone of Vindhyan age is extensively mined in Bharatpur. Bloackable / Splittable sand stone is available near village Bansi Paharpur, Bandh Baretha, Sirrondh, Mahalpur Churra etc. Sand stone varies in colour from buff-red to pink and creamish pink, at places spotted pink is also seen.

Presently, two blocks have been delineated for sandstone in Bansi Paharpur, one Block-A (221.75 HEC.) North of railway track and Block-B (424.81 hect.) South of railway track. As per Survey of India Toposheet 54 F/5. Taking these blocks in consideration Depth of deposit taken approx. 60 and 100 mt. in Block-A & Block-B simultaneously.

Geological Map of Bharatpur District

(f) Method of Estimation of Reserves

Reserve estimation in small-scale non-metallic mineral area is a great task which cannot be very definitive and exhaustive but it is only on the basis of existing pits and exploration data as applied diverted area wholly excavated. Generally exploration, development and exploitation are carried out simultaneously and therefore requisite data for reserve estimation are seldom adequately available. The reserves of mineral have been estimated by plan area method and the basis of the outcrops findings in the area, structural behaviors & the control of mineralization the physical limits such as strike length, width & depth extension etc. The estimated reserves have been classified into proved, probable & possible category on the basis of present exploration for the purpose

of reserve calculation. The plan area has been calculated from the surface geological plan, this is multiplied by thickness of mineral and then by the bulk density.

(g) PHYSICAL & GEOLOGICAL CHARACTERISTICS OF THE DEPOSIT

Physical & Geological Characteristics of The Mineral: -

The sandstone deposit of the Paharpur area is having following physical

Characteristic:

Occurrence:- Sandstone is a clastic sedimentary rock produced from a stone made up of grains of quartz and other minerals of fairly uniform size and often smooth and rounded. These grains are held together by a cementing material which may be siliceous or ferruginous. The toughness of sandstone depends mostly on the nature of this cementing material.

Form - Massive Bedded

Colour - Reddish Brown
Structure - current bedding

Texture - Fine to medium grained

Lusture/Glose -Dull

Transparency -Opaque

Hardness -6 to 7 on Mohr's hardness

Specific gravity -2.4 t/m³

a. Compressive Strength -6.3-214MPa

b. Tensile Strength -4-25MPa

(h) Parameters of estimation of geological reserve and their category:

The following Parameters have been considered while estimating the geological reserves (in situ):

- Average 1.5m cover has been considered as soil, 4m cover has been considered as fractured Sandstone.
- 2. Average 16.5m cover has been considered as salable sandstone in proved category. Recovery of saleable Sandstone 70%. 10% is considering as Sub grade, 10 % is considering as a waste Generation & 10 % is considering as Overburden generation. The recovery is an assumed it may be changed due any reason cannot consider for any kind of Assessment.

Therefore, considering the above parameter in consideration, block wise tentative

Geological Reserves = Cross-Sectional Area (sqm.) x influence length (m) x Bulk

= 745133311.64 Tonnage

(i) The mineral reserves are computed as per UNFC. The reserves are as follows:

Reserves of Sandstone

| Total Mineral Resources (A+B) | Code | Reserves(Metric Tonnes) |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------|---------------------------------|
| 1 Mineral Reserves Proved Mineral Reserves Probable Mineral Reserves | 111 21 & 122 | 358849007.96 459043815.49 MT |
| Remaining Mineral Feasibility Mineral Resources Prefeasibility Mineral Resources Measured Mineral Resources Indicated Mineral Resources Inferred Mineral Resources Reconnaissance Mineral Resources | 211 21 & 222 331 332 333 334 | Nil Nil Nil Nil |

Details of UNFC Classification

UNFC is a three digit code based system, the economic viability axis representing the first digit, the feasibility axis the second digit and the geological axis the third digit. Each digit provided

Codes 1, 2 and 3 in decreasing order. The highest category of resources under UNFC system has code (111) and for lowest category the code is (334).

Code (111): This code is provided for the economically mineable part of the measured mineral resources (proved category reserves).

Code (121): This code is provided for the economically mineable part of the indicated mineral resources (probable category reserves).

Code (211): The part of the measured mineral resources (proved category), which as per feasibility study has not found economically mineable. The reserves blocked in 7.5 meters buffer zone and 45 meters from permanent structure.

Code (222): The part of the indicated mineral resources (probable category), which as per feasibility study has not found economically mineable. The reserves blocked in 7.5 meters buffer zone and 45 meters from permanent structure.

Code (333): Tonnage, Grade and mineral contents can be estimated with low level of confidence and resources are also inferred from geological reserves.

Life of mine:-

We are considered average production of 4, 00, 00,000 MT of sandstone per annum from the mine.

Life of mine

= Total mineable reserve (Proved + Probable)/ Av. Annual

Production

= 817892823.46 /40000000

= 20.44 Years, say as 21 Years.

Method of Mining

The mining shall be started from the top of hill. Delinated area applied for diversion is completely broken up and pre-excavated. Direction of advance shall be in SE direction as shown in the Plate no. 6.

Topsoil shall be removed initially & stack separately. The Bench Parameters shall be for mineral

1. Height - 1m -3m 2. Width - More than height

The Bench Parameters shall be for O/B/Fracture

Height – 1m -6m 2. Width - More than height

Gradient of the Haul Road: - 1 in 16 (ramps).

(a) Proposed Year wise Development for Five Years -

The Mining shall be started from the top of Bottom. SW side & near pillar of the Delineated plot area. The mineral shall be collected in the mineral stack yard and then sorted over manually before its final dispatch to various industries through trucks. The waste generated shall be carried through dumpers to the dump yard. Overburden shall be removed on contractual basis.

Year wise proposed production of minerals

| Year | Salable Sand Stone tonnes | Sub Grade In tonnes | Waste generated in tonnes | Overburden generated tonnes |
|-------------|------------------------------|---------------------------|------------------------------|-----------------------------------|
| First Year | 40 million tonne | 10% of the saleable | 10% of saleable | 10% of saleable |
| Second Year | 40 million tonne | 10% of the saleable | 10% of saleable | 10% of saleable |
| Third Year | 40 million tonne | 10% of the saleable | 10% of saleable | 10% of saleable |
| Fourth Year | 40 million tonne | 10% of the saleable | 10% of saleable | 10% of saleable |
| Fifth Year | 40 million tonne | 10% of the saleable | 10% of saleable | 10% of saleable |

(b) Proposed Rate of Production when the mine is fully developed and expected life of the mine and the year from which effected:-

Proposed rate of Production when the mining area is fully developed: - 40 million tons per year.

(c) Anticipated Life of Mine

By considering average production of 40 million tonnes of mineral per annum

Life of mine

= Total mineable reserve (Proved + Probable)/ Av. Annual

Production

= 817892823.46 /40000000

= 20.44 Years, say as 21 Years.

The Life of mine may change depend upon the market demand, rate of production and the extent of mechanization done by the lessee in near future.

- (d) Proposed Mining Method: The Sand Stone mine shall be developed by Mechanized opencast Mining. The mineral is lying on the sub surface therefore open cast mining has been the obvious choice.
 - For sandstone Benches

The Bench Parameters shall be for mineral

1. Height - 1m -3m 2. Width - More than height

The Bench Parameters shall be for O/B/Fracture

- 1. Height 1m -6m 2. Width More than height
- Gradient of the Haul Road: 1 in 16 (ramps).
- Width of the approach Road: 6M

The main mining operation includes digging, cutting and the transportation by trucks. The Mineral in the trucks are loaded by excavator.

(d) CONCEPTUAL MINING PLAN: -

Proposal of Conceptual Plan

The Proposals of the Conceptual Closure are based on the Geology and Topography of the region. A part of the excavated region shall be converted into water reservoir & Part shall be Backfilled after exhausting the complete available mineral. The lessee shall make water drains for the purpose. This shall also increase the aesthetic beauty of the area. The office and other buildings, the mine road and the other entire infrastructure developed by the lessee shall be used by lessee for various purposes. The virgin & backfilled region shall be used for agriculture purposes.

Land Degradation and Reclamation

Total Excavated Area

272.0903 Hectares

Area to be Reclaimed (Back Filled) : 136.0451 Hectares

Area to be Water Reserve : 268.1294 Hectares

Remaining Dump Area : Separately marked

Post Mining Land use: - At the end of the mining operation, all part shall be back filled. The Backfilled and None utilized area would be used for a Forming/forestation after spreading topsoil over it. The lessee would use the Buildings and Roads for infrastructure facilities.

(e) Rehabilitation

As no personnel are expected to be migrated due to mining in the mining lease and the adjoining region is also having a good mineral potential, the rehabilitation of the employees is not a problem. The workers and other staff can get job in the neighboring areas after the end of life of mine. The lessee shall also try for employment of the workers.

Plantation Proposals

Type of Plants : 1. Peepal, 2. Neem, 3. Bargad, 4. Babool 5.

Sheesham & other Native Species.

No. of Plants : As per departmental norms

Time of Implementation : During the rainy season in form of green festival

(f) Blasting

Small blasting with low charge of holes just to loosen the rocks is proposed in upper layers to remove the hard overburden.

Details of the Mining Machinery to be deployed and their detailed

Mining in sandstone mine is done by semi mechanized mining method with the uses of, following machinery deployed or to be deployed during the course of mining in the Sandstone mine lease area.

Mining Machinery to be deployed

| S. No. | Machine | No's | Capacity | |
|--------|-----------------|------|--------------------|--|
| 1 | Air Compressor | 5 | 256 CFM | |
| 2 | Wagon Drill | 5 | 100 mm dia | |
| 3 | Jack Hammer | 5 | 32 mm dia | |
| 4 | Derrick Crane | 5 | 30 tonne | |
| 5 | Dumper | 20 | 20 Tonne | |
| 6 | Excavator | 5 | 1.2 m ³ | |
| 7 | Wire Saw Cutter | 25 | 30 HP | |
| 8 | Tractor | 5 | 35 HP | |
| 9 | D. G. Set | 2 | 220 kva | |

MINE DRAINAGE

The average rainfall in this area is very low, and it hardly exceeds 600mm. Seasonal water stream do pass through the mining lease area in which the water flows through natural gradient. It is capable of dealing with the rainwater during the rainy season. There is scarce chance of this water enter into the Pits. If rainwater does get collected in pits and remain there for a considerable period of time, it takes about two to three months to percolate down the ground. Normally work at bottom of the pit remains suspended in the months following the rains. However, in case of necessity the water may be pumped out using one diesel engine driven pump of say 5-10H.P. This water can be spilled in the water drain made for the proper drainage of the mine water outside the mining lease area.

The Ground water table is 25m (in rainy season) to 40m (in Dry Season).

The drinking water can be brought from the wells in nearby areas.

The rain water shall be utilized by harvesting techniques.

DETAILS OF EMPLOYMENT

Requirement of Technical, other staff and man power are as follows:

| S. No. | Designation | Propose d | Qualification | | |
|-----------|---------------------------------|--------------|-----------------------------------------------------------------|--|--|
| 1 | Mines Manager | 70 | II class Mines Manager/Permit Managers Certificate Holder | | |
| 2 | Mining Mate | 70 | Mining mate certificate | | |
| 3 | Geologist (Part time) | 4 | M.Sc. (Geology) | | |
| 4 | Surveyor (Part time) | 4 | Mine surveyor's Certificate | | |
| 5 | Time keeper cum Store keeper | 15 | Secondary | | |
| 6 | Watchmen | 20 | Certificate holder | | |
| 7 | Skilled Labour/Operator | 320 | Continuate Holder | | |
| | Unskilled Labor | 320 | | | |
| | Total | 823 | | | |

It is proposed to employ labors on Contract basis.

Measure Taken And To Be Taken For Dumping Overburden, Stacking of Top Soil And Utilization of Top Soil And Land Restoration, Reclamation And Plantation In or Near By Mining Area.

Measure Taken for Dumping Overburden, Stacking of Top Soil and Utilization of Top Soil:-Top soil stacked separately and utilized within the year for plantation. Dumping site for OB has been chosen such that natural water channel not get disturbed. A wall of rubble stone made around the dump to stop the lateral spread of the waste dump. Water garlands are also constructed around the waste dump to trap the silt contamination.

Nature of Waste The waste as overburden in the area is top soil and fractured waste. The soil cover in the area varies from 0.5m and fractured waste with shale parting waste varies from 1m. The rock fragments of small size are also resulted after mining.

Restoration

The mined out land partly shall be reclaimed by backfilling of overburden and stored top soil shall be spread over it. The lessee shall restore, reclaim of the land as under Rule RMMCR, 2017.

Rehabilitation

As no person are expected to be migrated due to mining in the mining lease area and the adjoining region is also having a good mineral potential, the rehabilitation of the employes is not going to be a problem. The workers and other staff can get job in the neighboring areas after the end of life of mine. The lessee shall also try for employment of the workers.

Programmed for Plantation

| S. No. | Year of Plantation | Target of Plantation | Assumed survival | |

| 4 | Fourth year | 40000 | 20000 | |
| 5 | Fifth year | 40000 | 20000 | |

Place of proposed plantation: - The plantation shall be done at the following places:-

| The Plantation area marked on map | Both site of the road |
|-----------------------------------|--------------------------------------------------------|
| Dump Site | Govt. waste land provided by the Govt. and own land |

Measures taken and to be taken for protection of environment in and around mining lease area

- 1. The lessee shall backfill mine out land or convert into water reservoir.
- 2. Plantation shall be done by the lessee.
- 3. Water Management:
- (i) Water collected shall be analyzed and if found potable than it shall be diverted for drinking purpose in consultation with State Public Health Engineering Department.
- (ii) Accumulated un-potable rain water shall be dewatered and diverted to nearby pond/aquifer/river/nallah, catchment area by providing suitable pipe line or drains or links canals, as the case may be, in consultation with State Public Health Engineering Department.
- (iii) The procedure of water harvesting shall be adopted to recharge the ground water table.
- (iv) Effective steps shall be taken for setting up of a water treatment plant wherever required to treat the effluents collected in the working pits; and
- (v) For working below ground water level the mining lease, license or short term permit holder shall carry out a detailed hydro-geological study taking into account the mine water discharge, management of discharged water and shall obtain prior approval of State Ground Water Department.
- (vi) The lessee takes all possible precaution for the protection of environment and control of pollution.

Environmental Management Fund:

The lessee shall deposit the amount in the Environmental Management Fund as decided by the State Government the fund shall be utilized for protection of environment in and around mining lease area.

Measures taken and to be taken for the control of water, noise and air pollution

The environment impact assessment should be done periodically for the degradation of the land pollution of air quality, noise level and vibration level

Water Environment

Surface Water: Proposed waste rock dump sites are away from any seasonal water stream Thus there will be no impact of mining in the natural flow of water and the drainage system in the area. The lessee shall make garland drain, retaining walls, setting tanks all around the pits and dumps as shown in plate-5. The rain water shall be utilized by harvesting techniques.

Ground water the water table in the area is 25m (in rainy season) to 40 m (in Dry Season). The mining activity shall be reached up to 479mRL. The ground water in the area is not likely to be effected at all.

Water quality- The mineral produced and the waste rocks generated are not likely to pollute the water quality in any manner.

Noise- Noise is created due to machineries deployed in the area. Precaution and regular maintenance of drills and excavator replacement of damaged/ worn out parts when even required will be taken. Ear plugs will be provided to the persons exposed to high noise level.

There shall be no adverse impact on this account to the workers and local inhabitants.

Air The only source to pollute air is the generation of dust while undertaking the mechanized mining operation including loading transportation & unloading sizing the mineral. The road will be maintained properly. The maintenance of road will also help in maintenance of machinery, tyres etc. dust suppression will be done by spraying water from time to time. Dust generation during drilling will be tackled by wet drilling / dust collector. In addition as an extra precaution dusk masks will be provided to the drilling crew. The total SPM concentration would be less than the national permeable limit of 200ug/m^3 for residential area.

Monitoring schedules for different environmental components after commencement of mining /during mining.

| S. No. | Monitoring | Period |
|--------|------------------------|------------------|
| I | Air Monitoring | As per pollution |
| 2 | Noise Level Monitoring | consent |
| 3 | Water testing | Consent |
| 4 | Soil testing | |
| 5 | Ground vibration | |

Contribution regarding the social development for the nearby residents

The Lessee shall spend 1% of profit for the development of the area i.e. treatment of

poor-schools, temples and other social work. Local residence shall be employed.

CHAPTER- 12

Details of health checkup and insurance of all the employed persons

- (i) Area is delineated for e-auction. After completion of e-auction, lease will be granted for successful bidder. Leases will organize periodically health check up camps for the workers engaged in mines.
- (ii) Occupational health surveillance program of the workers shall be undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed;
- (iii) Safety to prevent the worker getting injury during work following measure will be taken:
 - a. The workers will be trained in vocational training they get proper training in their particular work.
 - b. They will be provided proper safety equipment such as safety boots, helmets, and lifeline etc.
 - Proper benches will be formed.
 - d. Apart from this all safety precaution will be taken as per Act, Rules and Regulation.

USE OF MINERAL & MINERAL PROCESSING

Being a decorative stone, the principal use of this sand stone is in flooring and wall tiles. The lessee will export and also supply in indigenous market the blocks, tiles, slabs of the sand stone.

The exeavated mineral is dressed as finished good before packing in container made ready for export/indigenous use.

CHAPTER-14:

CONCLUSION

The mining will be mechanized open cast mine in the process of development. The mineral produced is of good quality. Its O/B ratio is low at present, which supports the mining potential. During this phase, efforts shall be made to fully develop this mine by a systematic pattern i.e.

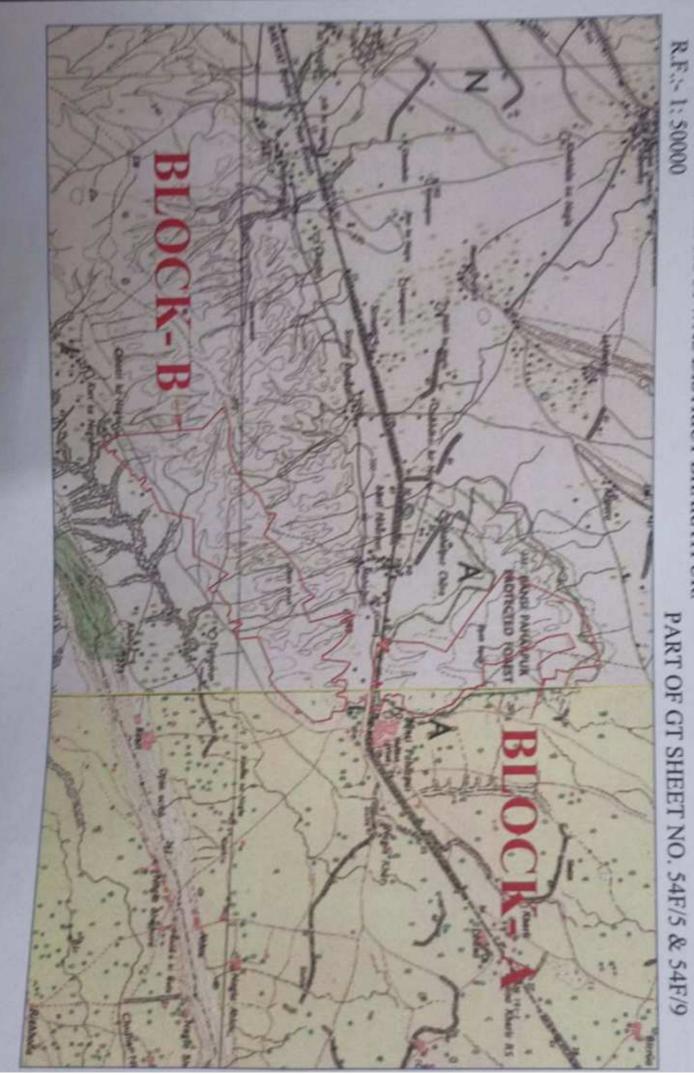

- Adhering to the proposed mining sequence.
- Implementation of the planning with regard to the plantation and systematic dumping of the waste rocks, as proposed.

FORM-II (for project other than linear projects) Government of Rajasthan Office of the District Collector, Bharatpur

No. Rev / 12 / 2(3)2021 / 1871

date 1917 call

TO WHOMSOEVER IT MAY CONCERN In complinace of the Ministry of Environment and Forests (MoEF), Government of India's letter No. 11-9/98-FC (pt) dated 3rd August 2009 wherein the MoEF issued guidelines on submission of evidences for having initiated and completed the process of settlement of nights under the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006('FRA' for short) on the forest land proposed to be diverted for nonforest purposes, it is certified that 646.56 hac. of forest land proposed to be diverted in favour of Assistant Mining Engineer, Mines & Geology Department Roopwas distt. Bharatpur, for non forest purpose in khasra no. 01 area 212.85 hac., 31 area 3.62 hac., 32 area 0.05 hac., 33 area 4.99 hac., 34 area 0.24 hac., 40 area 1.70 hac., 74 area 21.20 hac., 76 area 400.63 hac., 77 area 1.28 hac. total area 646.56 hac. village Bansipaharpur Tehsii Roopwas district Bharatpur.

It is further certified that:

- The complete process for identificatin and settlement of rights under the FRA has been carried out for the entire 646.56 hac., of forest area proposed for diversion. A copy of records of all consultations and meetings of the Forest Rights Committee(s). Gram Sabha(s), Sub- Division Level Committee(s) and the District Level Committee are enclosed as annexure A to annexure C
- The proposal for such diversion (with full details of the project and its implications, in (d) vernacular/local language) have been placed before each concerned Gram Sabha of forest- dwellers, who eligible under the FRA.
- The each of concerned Gram Sabha(s) has certified that all formalities/processes () under the FRA have been carried out, and that they have given their consent to the proposed diversion and the compensation and ameliorative measures, if any, having understood the purpose and details of proposed divesion. A copy of certificate issued by the gram sabha of Bansipaharpur village(s) is enclosed as annexure A to annexure C.
- The discussion and decisions on scuh proposals had taken place only when there was a d) quorum of minumum 50% of the members of Gram Sabha present.
- The diversion of forest land for facilities managed by the government as required 41 under section 3(2) of the FRA have been completed and the Gram Sabhas have given their consent to it;

The rights of Primitive Tribal Groups and Pre-agricultural communities, where Ŋ. applicable have been specifically safeguarded as per section 3(1) (e) of the FRA.

Government of India Ministry of Environment, Forest and Climate Change (Issued by the State Environment Impact Assessment Authority(SEIAA), Rajasthan)

To,

The AME ASSISTANT MINING ENGINEER ROOPWAS opposite police station Dholpur Road, Roopwas -321404

Subject: Grant of Environmental Clearance (EC) to the proposed Project Activity

under the provision of EIA Notification 2006-regarding

Sir/Madam.

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the SEIAA vide proposal number SIA/RJ/MIN/72797/2021 dated 05 Mar 2022. The particulars of the environmental clearance granted to the project are as below.

1. EC Identification No. EC22B001RJ157600

2. File No. 16289 3. **Project Type** New 4.

Category

5. Project/Activity including 1(a) Mining of minerals Schedule No.

PHARPUR SANDSTONE CLUSTER MINING PROJECT, Area –398.0085 Ha. (Forest diverted land) The Cluster Mining Name of Project in Block B & the area of Block-B is 284.3135 Ha. andProposed Capacity of Mineral – 4,00,00,000 TPA (ROM)(Sand Stone-28000000 TPA, Sub grade Mineral-

400000TPA, Waste – 4000000 TPA and OB- 4000000 TPA) NearVillage-Paharpur, Tehsil-Roopwas, District –Bharatpur Rai.

7. Name of Company/Organization ASSISTANT MINING ENGINEER

ROOPWAS Location of Project Rajasthan

8. 12 Jan 2022 9. **TOR Date**

The project details along with terms and conditions are appended herewith from page no 2 onwards.

Date: 24/03/2022

(e-signed) P.K. Upadhyay Member Secretary SEIAA - (Rajasthan)

Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH.Please quote identification number in all future correspondence.

3. The SEAC Rajasthan after due considerations of the relevant documents submitted by the project proponent and additional clarifications/documents furnished to it have recommended for Environmental Clearance with certain stipulations. The SEIAA Rajasthan after considering the proposal and recommendations of the SEAC, Rajasthan in its 5.10th Meeting held on 23rd March, 2022 hereby accord Environmental Clearance to the project and approvel the EIA/EMP as per the provisions of Environmental Impact Assessment Notification 2006 and its subsequent amendments, subject to strict compliance of the terms and conditions as follows:

Specific Conditions:

- 1. In order to ensure sustainable mining with efficient utilization of mineral resources, with adequate environmental safeguards, annual mining plan for the first 5 years has to be prepared based on the individual mine's plan for both the Blocks.
- 2. Step-wise mining for annual production is shall be done, subject to satisfactory compliance of various conditions imposed by concerned departments as per EC, CTE/CTO, Forest and Wildlife etc., which shall be annually reviewed by NEERI, for the individual as well as for the cluster of mines for increase in annual production for the next year. Suggested annual production for next year would be equal to the actual production in the current year plus 50% increase in production, subject to satisfactory compliance of various conditions.
- Robust dust-free road network needs to be developed within the mining lease area and also outside the mine area to the destinations within the Bharatpur district.
- 4. Adequate and designated proper parking facility to be developed within the mine lease area or outside, for the trucks as well as other heavy machinery used in the mining activities.
- 5. The PP shall also abide by the special conditions as mentioned in OM dated 08.08.2019 and as noted in the above mentioned observations.
- 6. The village/ Public roads shall not be used for haulage of material from mines to state and or national highway. The network of this transport shall be design and implemented so as to ensure that the level of service of State and National Highway, as exist now shall not deteriorate.
- 7. The haul roads and approach roads with in the cluster area shall be metalled and maintained in a manner that there shall not be any particulate re-suspension from the plying of vehicles irrespective of cost incurred/proposed.
- 8. A continuous ambient Air Quality Monitoring station shall be installed and maintained at suitable place for ensuring Air Quality of the area.
- 9. The PP shall provide suitable systems for maintenance and parking of vehicles in order to avoid congestion and deterioration of ambient air quality and also the level of services.
- 10. The project proponent shall also ensure that due to significant scale of mining activity as well as movement of transport, adequate facilities for the people associated with the mining activities as well as the means of transport are provided in a manner that it do not

cause water pollution. Further adequate facilities for proper management of waste and its disposal be provided for such migratory population.

1. Statutory compliance:

- I. This Environmental Clearance (EC) is subject to orders/ directions of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, as is applicable.
- II. The Project proponent complies with all the statutory requirements and judgments of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.
- III. The Department of Mines & Geology, Government of Rajasthan (DMG, GoR) shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through Department of Mining & Geology in strict compliance of Judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.
- IV. In case the project falls within a distance of 10 Km from the boundary of a National Park/ Wildlife Sanctuary, wherein final ESZ Notification has not been issued so far, the EC shall come into effect only after the PP obtains clearance from the Standing Committee of National Board for Wildlife (SCNBWL) as per OM dated 08.08.2019 of MoEF & CC.
- V. This Environmental Clearance shall become operational only after receiving formal SCNBWL Clearance from Ministry of Environment, Forest & Climate Change, (MoEF & CC), Government of India (GoI) subsequent to the recommendations of the Standing Committee of National Board for Wildlife, if applicable to the Project.
- VI. This Environmental Clearance shall become operational only after receiving Forest Clearance (FC) under the provision of Forest Conservation Act, 1980, if applicable to the
- VII. Project Proponent (PP) shall obtain Consent to Operate after grant of EC and effectively implement all the conditions stipulated therein. The mining activity shall not commence prior to obtaining Consent to Establish/ Consent to Operate from the State Pollution Control Board.
- VIII. The PP shall adhere to the provision of the Mines Act, 1952, Mines and Mineral (Development & Regulation), Act, 2015 and rules & regulations made there under. PP shall adhere to various circulars issued by Directorate General Mines Safety (DGMS) and Indian Bureau of Mines (IBM) from time to time.
- IX. The Project Proponent shall obtain consents from all the concerned land owners, before start of mining operations, as per the provisions of MMDR Act, 1957 and rules made thereunder in respect of lands which are not owned by it.
- X. The Project Proponent shall follow the mitigation measures provided in MoEF CC's Office

- Memorandum No. Z-11013/57/2014-IA.II (M), dated 29th October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area".
- XI. The Project Proponent shall obtain necessary prior permission of the competent authorities for drawl of requisite quantity of surface water and from CGWA for withdrawal of ground water for the project.
- XII. A copy of EC letter will be marked to concerned Panchayat/ local NGO etc. if any, from whom suggestion/ representation has been received while processing the proposal.
- XIII. State Pollution Control Board shall be responsible for display of this EC letter at its Regional office, District Industries Centre and Collector's office/ Tehsildar's Office for 30 days.
- XIV. The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board and website of the Department of Environment, Govt. of Rajasthan, RSPCB for compliance and record.
- XV. The Project Proponent shall inform the MoEF & CC/ SEIAA for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred then mining operation shall only be carried out after transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.
- XVI. The Mining Department will ensure that while executing the mining lease, if the mining lease forms a cluster of total area of more than 5.0 ha, in accordance with EIA notification dated 15.01.2016 and 01.07.2016, then such mining lease will be executed/ registered only after public hearing has taken place for the entire cluster and there has been EIA/EMP study of the entire cluster. The Mining Department will further ensure that revised EC is also obtained by such mining lease holder (s) in the cluster.
- XVII. The Mining lease holder shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to the mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.
- XVIII. That the grant of this E.C. is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the project proponent.
- XIX. No further expansion or modifications in the project shall be carried out without prior approval of the SEIAA/MoEF & CC as the case may be. In case of deviations or alterations in the project proposal from those submitted to this Authority for clearance, a fresh reference

- shall be made to the Authority to assess the adequacy of conditions imposed and to include additional environmental protection measures required, if any.
- XX. The EC is liable to be rejected/ revoked, in case it is found that the PP has deliberately concealed and/or furnished false and misleading information or data which is material to screening or scoping or appraisal or decision on the application for EC.
- XXI. Officials from the Department of Environment, Government of Rajasthan, Jaipur/ Regional Office of MoEF & CC, Lucknow, RSPCB who would be monitoring the implementation of Environmental safeguards should be extended full cooperation, facilities and documents/data by the project proponents during their inspection. A complete set of all the documents submitted to SEIAA should be forwarded to the CCF, Regional Office of MoEF, Lucknow, Department of Environment, Government of Rajasthan, Jaipur / RSPCB.
- XXII. The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provision of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
- XXIII. The above condition shall be enforced among others under the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006, along with their amendments and rules.
- XXIV. The PP shall obtain prior clearance from forestry and wildlife aspects including clearance from Standing Committee of National Board of Wild Life (if applicable). It is further categorically stated that grant of EC does not necessary imply that Forestry and Wildlife clearance shall be granted to the project by the concerned authorities. Proposals for forestry and wildlife clearance will be considered by the concerned authorities on its merits and decision taken accordingly. The investment made in the project, if any based on EC so granted, in anticipation of clearance from Forestry and Wildlife aspects shall be entirely at the cost and risk of the PP and MOEF & CC/SEIAA/ SEAC/ DOE shall not be responsible in this regard in any manner.
- XXV. The SEIAA, Rajasthan may revoke or suspend the Environmental Clearance, if implementation of any of the above conditions is not satisfactory.
- XXVI. The PP shall submit an environmental statement for the financial year ending 31st March in Form-V as prescribed under the environment (Protection) Rules, 1986, as amended subsequently on or before the 30th day of September every year, to the Rajasthan State Pollution Control Board/SEIAA and shall also be put on the website of the company/ unit/ industry along with the status of compliance of environmental clearance conditions and shall also be sent to the Lucknow Regional offices of MoEF/SEIAA/ RSPCB by e-mail as well as hard copy duly signed by competent person of company.
- XXVII. This EC is granted for mining of the mineral with production mentioned in the above table subject to the stipulation that the PP shall abide by the annual/ permitted production

- schedule specified in the mining plan and that any deviation therein will render the PP liable for legal action in accordance with Environment and Mining Laws.
- XXVIII. The PP shall spend the various amounts in the respective heads as mentioned in Annexure G.
- XXIX. Drills shall either be operated with dust extractors or equipped with water injections
- XXX. Data on ambient air quality and stack emissions should be submitted to Rajasthan State Pollution Control Board once in six months. The monitoring/ sampling and analysis are to be carried out by MOEF/ NABL/ CPCB/ RSPCB/ Government approved lab.
- XXXI. Blasting operations, if permitted, should be carried out only during the daytime with safe blasting parameters.
- XXXII. The PP shall carry out mining activities with open cast method. The PP to undertake underground mining only if permitted specifically.
- XXXIII. In the project related to Bajri mining the PP shall follow the 'Sustainable Sand Mining Guidelines 2016' and 'Enforcement and Monitoring Guidelines for Sand Mining, 2020' laid down by the MoEF & CC, GOI. The Bajri sand mining activity is restricted to three meters from ground level or water level whichever is less and the PP shall carry out river sand (Bajri) mining activity only manually or semi mechanized method as provided under the 'Sustainable Sand Mining Management Guidelines, 2016' and 'Enforcement and Monitoring Guidelines for Sand Mining, 2020'.
- XXXIV. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under section 16 of the National Green Tribunal Act, 2010.

2. Air quality monitoring and preservation:

- i. The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PMI 0, PM2.5, NO2; CO and SO2 etc. as per the methodology mentioned in NAAQS Notification No. B-29016/20/90/PCI/I. dated 1 8.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.
- ii. Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The fugitive dust emissions from all sources shall be regularly controlled by installation of required equipments/ machineries and

preventive maintenance. Use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEF & CC/ Central Pollution Control Board.

3. Water quality monitoring and preservation:

- In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEF & CC is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.
- ii. Regular monitoring of the flow rate of the springs and perennial nallahs flowing in and around the mine lease shall be carried out and records maintain. The natural water bodies and or streams which are flowing in an around the village, should not be disturbed. The Water Table should be nurtured so as not to go down below the pre-mining period. In case of any water scarcity in the area, the Project Proponent has to provide water to the villagers for their use. A provision for regular monitoring of water table in open dug well located in village should be incorporated to ascertain the impact of mining over ground water table. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.
- iii. Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.
- iv. The Project Proponent shall undertake regular monitoring of natural water course/ water resources/ springs and perennial nallahs existing/ flowing in and around the mine lease and maintain its records. The project proponent shall undertake regular monitoring of water quality upstream and downstream of water bodies passing within and nearby/ adjacent to the mine lease and maintain its records. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. PP shall carryout regular monitoring w.r.t. pH and included the same in monitoring plan. The parameters to be monitored shall include their water quality vis-a-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEF & CC. The monitoring of water courses/ bodies existing in lease area shall be carried out four times in a year viz. pre- monsoon (April-May), monsoon (August), post-monsoon

- (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six -monthly basis.
- v. Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Dissolved Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the website of the company as well as displayed at the project site in public domain, on a display board, at a suitable location near the main gate of the Company. The circular No.I-20012/1/2006-IA.II (M) dated 27.05.2009 issued by Ministry of Environment, Forest and Climate Change may also be referred in this regard.
- vi. Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEF & CC annually.
- vii. Industrial waste water (workshop and waste water from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.
- viii. The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEF & CC and State Pollution Control Board.

4. Noise and vibration monitoring and prevention:

- The peak particle velocity at 500m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.
- ii. The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day /night hours.
- iii. The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs/ muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/ personals/ laborers are working without personal protective

equipment.

iv. The ambient noise level should confirm to the standards prescribed under E (P) A Rules, 1986 viz 75 dB (A) during day time and 70 dB (A) during night time.

5. Mining plan:

- The Project Proponent shall adhere to the working parameters of mining plan which was submitted at the time of EC appraisal wherein year-wise plan was mentioned for total excavation i.e. quantum of mineral, waste, over burden, inter burden and top soil etc.. No change in basic mining proposal like mining technology, total excavation, mineral & waste production, lease area and scope of working (viz. method of mining, overburden & dump management, O.B & dump mining, mineral transportation mode, ultimate depth of mining etc.) shall not be carried out without prior approval of the Ministry of Environment, Forest and Climate Change/ SEIAA, which entail adverse environmental impacts, even if it is a part of approved mining plan modified after grant of EC or granted by State Govt. in the form to Short Term Permit (STP), Query license or any other name.
- ii. The Project Proponent shall get the Final Mine Closure Plan along with Financial Assurance approved from Indian Bureau of Mines/Department of Mining & Geology as required under the Provision of the MMDR Act, 1957 and Rules/ Guidelines made there under. A copy of approved final mine closure plan shall be submitted within 2 months of the approval of the same from the competent authority to the concerned Regional Office, MoEF & CC/ SEIAA/ SPCB for record and verification.
- iii. The land-use of the mine lease area at various stages of mining scheme as well as at the endof-life shall be governed as per the approved Mining Plan. The excavation vis-a-vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. PP shall ensure the monitoring and management of rehabilitated areas until the vegetation becomes selfsustaining. The compliance status shall be submitted half-yearly to the MoEF & CC/ SEIAA/ SPCB and its concerned Regional Office.

6. Land reclamation:

- The Overburden (O.B.) generated during the mining operations shall be stacked at earmarked OB dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by D.G.M.S w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of top soil/OB dumps. The topsoil shall be used for land reclamation and plantation.
- ii. The reject/waste generated during the mining operations shall be stacked at earmarked waste dump site(s) only. The physical parameters of the waste dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by DGMS w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of waste dumps.
- iii. The reclamation of waste dump sites shall be done in scientific manner as per the Approved

- Mining Plan cum Progressive Mine Closure Plan.
- iv. The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer/ compactors thereby ensuring proper filling/ leveling of dump mass. In critical areas, use of geo textiles/ geo-membranes / elay liners / Bentonite etc. shall be undertaken for stabilization of the dump.
- v. The Project Proponent shall carry out slope stability study in case the dump height is more than 30 meters. The slope stability report shall be submitted to concerned regional office of MoEF & CC/ RSPCB.
- vi. Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil/OB/Waste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/ River/ Pond etc.). The collected water should be utilized for watering the mine area, roads, green belt development, plantation etc. The drains/ sedimentation sumps etc. shall be de-silted regularly, particularly after monsoon season, and maintained properly.
- vii. Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50% shall be kept for designing of sump structures over and above peak rainfall (based on 50 years data) and maximum discharge in the mine and its adjoining area which shall also help in providing adequate retention time period thereby allowing proper settling of sediments/ silt material. The sedimentation pits/ sumps shall be constructed at the corners of the garland drains.
- viii. The top soil, if any, shall temporarily be stored at earmarked site(s) within the mine lease only and should not be kept unutilized for long. The physical parameters of the top soil dumps like height, width and angle of slope shall be governed as per the approved Mining Plan and as per the guidelines framed by DGMS w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of dumps. The topsoil shall be used for land reclamation and plantation purpose.

7. Transportation:

i. No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. In such cases, PP shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that

the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centers.

ii. The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipments like bag filters, vacuum suction hoods, dry fogging system etc. shall be installed at Crushers, beltconveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation of fugitive dust emissions.

8. Green Belt:

- The Project Proponent shall develop greenbelt in 7.5m wide safety zone all along the mine lease boundary as per the guidelines of CPCB in order to arrest pollution emanating from mining operations within the lease. The whole Green belt shall be developed within first 5 years starting from windward side of the active mining area. The development of greenbelt shall be governed as per the EC granted by the Ministry/ SEIAA irrespective of the stipulation made in approved mine plan.
- ii. The Project Proponent shall carryout plantation/ afforestation in backfilled and reclaimed area of mining lease, around water body, along the roadsides, in community areas etc. by planting the native species in consultation with the State Forest Department/ Agriculture Department/ Rural development department/ Tribal Welfare Department/ Gram Panchayat such that only those species be selected which are of use to the local people. The CPCB guidelines in this respect shall also be adhered. The density of the trees should be around 2500 saplings per Hectare. Adequate budgetary provision shall be made for protection and care of trees.
- iii. The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/ protected against felling and plantation of such trees should be promoted.
- iv. The Project Proponent shall undertake all precautionary measures for conservation and protection of endangered flora and fauna and Schedule-I species during mining operation. A Wildlife Conservation Plan shall be prepared for the same clearly delineating action to be taken for conservation of flora and fauna. The Plan shall be approved by Chief Wild Life

Warden of the State Govt.

v. And implemented in consultation with the State Forest and Wildlife Department. A copy of Wildlife Conservation Plan and its implementation status (annual) shall be submitted to the Regional Office of the Ministry/ SEIAA.

9. Public hearing and human health issues:

- The Project Proponent shall appoint an Occupational Health Specialist for Regular as well as Periodical medical examination of the workers engaged in the mining activities, as per the DGMS guidelines. The records shall be maintained properly. PP shall also carryout Occupational health check-ups in respect of workers which are having ailments like nr, diabetes, habitual smoking, etc. The check-ups shall be undertaken once in s1x months and necessary remedial/ preventive measures be taken. A status report on the same may be sent to MoEF & CC/ SEIAA/ Regional Office and DGMS on half-yearly basis.
- ii. The Project Proponent must demonstrate commitment to work towards 'Zero Harm' from their mining activities and carry out Health Risk Assessment (HRA) for identification workplace hazards and assess their potential risks to health and determine appropriate control measures to protect the health and wellbeing of workers and nearby community. The proponent shall maintain accurate and systematic records of the HRA. The HRA for neighborhood has to focus on Public Health Problems like Malaria, Tuberculosis, HIV, Anaemia, Diarrhoea in children under five, respiratory infections due to bio mass cooking. The proponent shall also create awareness and educate the nearby community and workers for Sanitation, Personal Hygiene, Hand wasting, not to defecate in open, Women Health and Hygiene (Providing Sanitary Napkins), hazard of tobacco and alcohol use. The Proponent shall carryout base line HRA for all the category of workers and thereafter every five years.
- iii. The Proponent shall carry out Occupational health surveillance which be a part of HRA and include Biological Monitoring where practical and feasible, and the tests and investigations relevant to the exposure (e.g. for Dust a X-Ray chest; For Noise Audiometric; for Lead Exposure Blood Lead, For Welders Full Ophthalmologic Assessment; for Manganese Miners a complete Neurological Assessment by a Certified Neurologist, and Manganese (Mn) Estimation in Blood; For Inorganic Chromium-Fortnightly skin inspection of hands and forearms by a responsible person. Except routine tests all tests would be carried out in a Lab accredited by NABH. Records of Health Surveillance must be kept for 30 years, including the results of and the records of Physical examination and tests. The record of exposure due to materials like Asbestos. Hard Rock Mining, Silica, Gold, Kaolin, Aluminium. Iron, Manganese, Chromium, Lead, Uranium need to be handed over to the Mining Department of the State in case the life of the mine is less than 30 years. It would be obligatory for the State Mines Departments to make arrangements for the safe and secure storage of the records including X-Ray. Only conventional X-Ray will be accepted for record purposes and not the digital one). X-Ray must meet ILO criteria (17 x14 inches and of good quality).
- iv. The Proponent shall maintained a record of performance indicators for workers which

includes (a) there should not be a significant decline in their Body Mass Index and it should stay between 18.5 -24.9, (b) the Final Chest X-Ray compared with the base line X-Ray should not show any capacities ,(c) At the end of their leaving job there should be no Diminution in their Lung Functions Forced Expiratory Volume in one second (FEV1), Forced Vital Capacity (FVC), and the ratio) unless they are smokers which has to be adjusted, and the effect of age, (d) their hearing should not be affected. As a proof an Audiogram (first and last need to be presented), (e) they should not have developed any Persistent Back Pain, Neck Pain, and the movement of their Hip, Knee and other joints should have normal range of movement, (f) they should not have suffered loss of any body part. The record of the same should be submitted to the Regional Office, MoEF & CC/ SEIAA annually along with details of the relief and compensation paid to workers having above indications.

- v. The Project Proponent shall ensure that Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
- vi. Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic infrastructure/ facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.
- vii. The activities proposed in Action plan prepared for addressing the issues raised during the Public Hearing shall be completed as per the budgetary provisions mentioned in the Action Plan and within the stipulated time frame. The Status Report on implementation of Action Plan shall be submitted to the concerned Regional Office o1 the Ministry along with District Administration.

10. Miscellaneous:

- The Project Proponent shall prepare digital map (land use & land cover) of the entire lease area once in five years purpose of monitoring land use pattern and submit a report to concerned Regional Office of the MoEF & CC/ SEIAA/SPCB.
- ii. The Project Authorities should inform to the SEIAA/Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
- iii. The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEFCC & its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.
- iv. A separate 'Environmental Management Cell' with suitable qualified manpower should be set-up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and

- Mining Engineers shall be appointed and submit a report to RO, MoEF & CC/ SEIAA/ SPCB.
- v. The MoEF & CC/ SEIAA/ SPCB shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEF & CC/ SEIAA/ SPCB officer(s) by furnishing the requisite data / information / monitoring reports.
- vi. Project Proponent shall keep the funds earmarked for environmental protection measures in a separate account and refrain from diverting the same for other purposes. The Year wise expenditure of such funds should be reported to the MoEF & CC/ SEIAA/ SPCB and its concerned Regional Office.

Additional conditions recommended in view of OM dated 08.08.2019 of the MoEF & CC (applicable where the project falls within a distance of 10 Km from the boundary of National Park/ Wildlife Sanctuary and outside notified ESZ):

- 1. The mining activity should be carried out in a manner so that the water regime/system of the sanctuary is not disturbed. The mining activity should not adversely affect any existing water course, water body, catchment etc. The PP shall while carrying out mining activity ensure compliance of the provisions of Air (Prevention and Control of Pollution) Act 1981, Water (Prevention and Control of Pollution) Act 1974 and the Environment (Protection) Act, 1986 so that the wildlife in the area is not adversely affected.
- 2. The processes like blasting, drilling, excavation, transport and haulage resulting into noise, should be carried out in such an manner so that such activities do not disturb wild animals and birds particularly during sunset to sunrise. The level of noise should be kept within the permissible limits.
- 3. The mining activity should not create any obstacle in the way of free movement of wildlife and adversely affect wildlife corridors.
- 4. The mineral waste/ slurry should be dumped only at the designated places only and such waste dumps should be reclaimed in accordance with the conditions of the mining plan/ consent issued by the RSPCB under the Water and Air act.
- 5. The PP shall cooperate with the concerned DCF, Wildlife in their efforts towards protection and conservation of wildlife in the Sanctuary/ Park.
- The PP shall ensure that the transporter and labor employed by him should not damage flora and fauna in the ESZ and the Wildlife Sanctuary/ National Park.

Specific Conditions applicable, in the cases of violation in terms of the Notification dated 14.3.2017 and 8.3.2018 and OMs dated 30.5.2018, 4.7.2018 of the MoEF&CC:

- 1. The PP shall give an undertaking by way of affidavit to comply with all the statutory requirements and judgment of the Hon'ble Supreme Court dated 02.08.2017 in the matter of Writ Petition (Civil) No. 114 of 2014, Common Cause V/s Union of India & others before grant of ToR/EC. The undertaking inter-alia include commitment of the PP not to be repeat any such violation in future.
- 2. In case of violation of above undertaking/ affidavit, the ToR/EC shall be liable to be terminated forthwith. hy.

- 3. The environmental clearance will not be operational, till such time the Project Proponent complies with all the statutory requirements and judgment of the Hon'ble Supreme Court dated 02.08.2017 in the matter of Writ Petition (Civil) No. 114 of 2014, Common Cause V/s Union of India & others.
- 4. The department of Mines & Geology shall ensure that the mining operations shall not commence till the entire compensation levied, if any, for illegal mining, is paid, by the Project Proponent through the Department of Mines and Geology, in strict compliance of the judgment of the Hon'ble Supreme Court dated 02.08.2017 in the matter of Writ Petition (Civil) No. 114 of 2014, Common Cause V/s Union of India & others.

GENERAL CONDITIONS

- 1. That the grant of this E.C. is issued from the environmental angle only, and does not absolve the project Proponent from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the industry / unit / project Proponent. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under section 16 of the National Green Tribunal Act, 2010.
- 2. No further expansion or modifications in the project shall be carried out without prior approval of the SEIAA/Ministry of Environment and Forests as the case may be. In case of deviations or alterations in the project proposal from those submitted to this Authority for clearance, a fresh reference shall be made to the Authority to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
- 3. The implementation of the project vis-à-vis environmental action plans shall be monitored by MoEF Regional Office at Lucknow / RSPCB / CPCB / SEIAA, Department of Environment, Government of Rajasthan, Jaipur and this office. A six monthly compliance status report shall be submitted to monitoring agencies.
- 4. The EC is liable to be rejected, in case it is found that the PP has deliberately concealed and furnished false and misleading information or data which is material to screening or scoping or appraisal or decision on the application for EC.
- 5. The project authorities shall inform the MoEF Regional Office at Lucknow / RSPCB / CPCB / SEIAA, Department of Environment, Government of Rajasthan, Jaipur and the date of financial closure and final approval of the project by the concerned authorities and the date of start of the project.
- 6. Officials from the Department of Environment, Government of Rajasthan, Jaipur/ Regional Office of MoEF, Lucknow, RSPCB who would be monitoring the implementation of Environmental safeguards should be given full cooperation, facilities and documents/data by the project Proponents during their inspection. A complete set of all the documents submitted to SEIAA should be forwarded to the CCF, Regional Office of MoEF, Lucknow / SEIAA, Department of Environment, Government of Rajasthan, Jaipur / RSPCB.

- 7. The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provision of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
- 8. The project Proponent should advertise in at least two local Newspapers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded environmental Clearance and copies of clearance letters are available with the Rajasthan State Pollution Control Board and may also be seen on the website of the RSPCB. The advertisement should be made within 7 days from the day of issue of the clearance letter and a copy of the same should be forwarded to the Regional Office of MoEF at Lucknow/Department of Ecology and Environment, Government of Rajasthan, Jaipur.
- 9. The above condition shall be enforced among others under the provisions of water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006, along with their amendments and rules.
- 10. The PP shall obtain prior clearance form forestry and wild Life angle including clearance from standing committee of National Board of Wild Life (if applicable). It is further categorically stated that grant of EC does not necessary imply that Forestry and Wild Life clearance shall be granted to the project and that proposals for forestry and wild Life clearance will be considered by the respective authorities on their merits and decision taken. The investment made in the project, if any based on EC so granted, in anticipation of clearance form Forestry and Wild Life angle shall be entirely at the cost risk of the PP and MOEF/SEIAA shall not be responsible in this regard in any manner.
- 11. The SEIAA, Rajasthan may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
- 12. Main haulage road should be provided with permanent water sprinklers and other roads should be regularly wetted with water tankers fitted with sprinklers. The material transfer points should invariably be provided with Bag filters and or dry fogging system. In case of Belt- conveyors facilities the system should be fully covered to avoid air borne dust; Use of effective sprinkler system to suppress fugitive dust on haul roads and other transport roads shall be ensured.
- Periodic monitoring of ambient air quality shall be carried out for PM10, PM2.5, SPM, SO2 and NOx monitoring. Location of the stations (minimum 6) shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring shall be decided in consultation with the Rajasthan State pollution Control Board (RPCB). Six monthly reports of the data so collected shall be regularly submitted to the RPCB/CPCB including the MoEF, Regional office, Lucknow.
- 14. Personnel working in dusty areas shall wear protective respiratory devices they shall also be provided with adequate training and information on safety and health aspects.
- 15. The ambient noise level should confirm to the standards prescribed under E (P) A Rules, 1986 viz 75 dB (A) during day time and 70 dB (A) during night time.

- 16. The PP shall submit an environmental statement for the financial year ending 31st March in Form-V as prescribed under the environment (Protection) Rules, 1986, as amended subsequently on or before the 30th day of September every year, to the Rajasthan State Pollution Control Board/SEIAA and shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the Lucknow Regional offices of MoEF/SEIAA by e-mail as well as hard copy duly signed by competent person of company.
- 17. The Mining Department will ensure that while executing the mining lease, if the mining lease forms a cluster of total area of more than 5.0 ha, in accordance with EIA notification dated 15.01.2016 and 01.07.2016, then such mining lease will be executed / registered only after public hearing has taken place for the entire cluster and there has been EIA/EMP study of the whole cluster. The Mining Department will further ensure that revised EC is also obtained by such mining lease holder (s) in the cluster.
- 18. The Mining lease holder shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to his mining activities and restored the land to a condition which is fit for growth of fodder, flora, fauna etc.

my 24/3/22 (P.K. Upadhyay) Member Secretary, SEIAA, Rajasthan.

No. F1 (4)/SEIAA/SEAC-Raj/Sectt/Project /Cat. B1(20565)/2021-22 Jaipur, Dated: Copy to following for information and necessary action:

| 6. | Fuel & Energy | HSD Fuel will be required for operating machineries. The lessee shall install stand by DG SET (Future requirement) with capacity of 100 KVA. |

hy.

provided with adequate training and information on safety and health aspects.

The ambient noise level should confirm to the standards prescribed under E (P) A Rules, 1986 viz 15.

75 dB (A) during day time and 70 dB (A) during night time.

The PP shall submit an environmental statement for the financial year ending 31st March in Form-16. V as prescribed under the environment (Protection) Rules, 1986, as amended subsequently on or before the 30th day of September every year, to the Rajasthan State Pollution Control Board/SEIAA and shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the Lucknow Regional offices of MoEF/SEIAA by e-mail as well as hard copy duly signed by competent person of company.

The Mining Department will ensure that while executing the mining lease, if the mining lease forms a cluster of total area of more than 5.0 ha, in accordance with EIA notification dated 15.01.2016 and 01.07.2016, then such mining lease will be executed / registered only after public hearing has taken place for the entire cluster and there has been EIA/EMP study of the whole cluster. The Mining Department will further ensure that revised EC is also obtained by such mining

lease holder (s) in the cluster.

The Mining lease holder shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to his mining activities and restored the land to a condition which is fit for growth of fodder, flora, fauna etc.

provided with adequate training and information on safety and health aspects.

The ambient noise level should confirm to the standards prescribed under E (P) A Rules, 1986 viz 75 dB (A) during day time and 70 dB (A) during night time.

The PP shall submit an environmental statement for the financial year ending 31st March in Form-V as prescribed under the environment (Protection) Rules, 1986, as amended subsequently on or before the 30th day of September every year, to the Rajasthan State Pollution Control Board/SEIAA and shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the Lucknow Regional offices of MoEF/SEIAA by e-mail as well as hard copy duly signed by competent person of company.

17. The Mining Department will ensure that while executing the mining lease, if the mining lease forms a cluster of total area of more than 5.0 ha, in accordance with EIA notification dated 15.01.2016 and 01.07.2016, then such mining lease will be executed / registered only after public hearing has taken place for the entire cluster and there has been EIA/EMP study of the whole cluster. The Mining Department will further ensure that revised EC is also obtained by such mining

lease holder (s) in the cluster. The Mining lease holder shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to his mining activities and restored the

land to a condition which is fit for growth of fodder, flora, fauna etc.

hy

subsequently on or before the 30th day of September every year, to the Rajasthan State Pollution Control Board/SEIAA and shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the Lucknow Regional offices of MoEF/SEIAA by e-mail as well as hard copy duly

signed by competent person of company.

The Mining Department will ensure that while executing the mining lease, if the mining lease forms a cluster of total area of more than 5.0 ha, in accordance with EIA notification dated 15.01.2016 and 01.07.2016, then such mining lease will be executed / registered only after public hearing has taken place for the entire cluster and there has been EIA/EMP study of the whole cluster. The Mining Department will further ensure that revised EC is also obtained by such mining lease holder (s) in the cluster.

18. The Mining lease holder shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to his mining activities and restored the land to a condition which is fit for growth of fodder, flora, fauna etc.

Shri Om Prakash Singh S/o Shri Bijendra Singh, Address - 17-K-3, Jyoti Nagar, Secretariat, Jaipur, Rajasthan.

> Sub:EC for Paharpur Sand Stone Mine (Minor Mineral) Mining Project for Plot No.- 34, Mine Lease Area-10.6654 Hectare, Production Capacity- 1250405 TPA (ROM){ Saleable Sandstone 875283.50 TPA, Sub Grade -250081 TPA, Waste- 125040.50 TPA}, Khasra No.1, Village- Paharpur, Tehsil- Roopwas, District- Bharatpur, Rajasthan (Proposal No-81582).

This has reference to your application dated 03.08.2022 seeking environmental clearances for the above project under EIA Notification 2006. The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification 2006 on the basis of the mandatory documents enclosed with the application viz. the questionnaire, EIA, EMP and additional clarifications furnished in response to the observation of the State Level Expert Appraisal Committee Rajasthan, in its meeting held on 9th, 10th & 11th November, 2022.

2. Brief details of the Project:

| 1. | Category / Item no.(in Schedule): | B-1, 1(a) Minor Mineral |
|----|----------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2. | Location of Project | Near village - Paharpur, Tehsil-Roopwas, District -Bharatpur (Rajasthan) |
| 3. | Project Details M.L. No. /Production capacity/Khasra No. | Paharpur Sand Stone Mine (Minor Mineral) mining project with proposed production capacity of Mineral -1250405 TPA (ROM) { Saleable Sandstone -875283.50 TPA, Sub Grade -250081 TPA, Waste- 125040.50 TPA }) Mining Lease Area- 10.6654 Ha. Plot No. 34 Situated at N/v-Paharpur, Tehsil-Roopwas, District -Bharatpur (Rajasthan) of Sh. Om Prakash Singh Khasra No-01 |
| 1 | Project Cost | Rs. 1279.37 Lacs |
| | | 20.80 KLD KLD (Tanker Water Supply from nearby village) |
| | Lifelgy | Yes, 300 LPD Diesel will be used for 2 nos. of D.G. Sets with capacity of 250 KVA (Future requirement) |

- 18. The Mining lease holder shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to his mining activities and restored the land to a condition which is fit for growth of fodder, flora, fauna etc.
- 19. This EC is being issued on the condition that the applied area is at a distance of more than 50 metres from the boundary of the closest forest area as stated by project proponent in Form I.

The Mining Department will ensure that while executing the mining lease, if the mining lease forms a cluster of total area of more than 5.0 ha, in accordance with EIA notification dated 15.01.2016 and 01.07.2016, then such mining lease will be executed / registered only after public hearing has taken place for the entire cluster and there has been EIA/EMP study of the whole cluster. The Mining Department will further ensure that revised EC is also obtained by such mining lease holder (s) in the cluster.

The Mining lease holder shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to his mining activities and restored the land to a condition which is fit for growth of fodder, flora, fauna etc.

कार्यालय जिला खनिज प्रतिष्ठान न्यास, भरतपुर म्यान ख में /भगत / डीएमएफटी /2023 /

दिनांक - 04 10 202 3

बैठक कार्यवाही विवरण

भरतपुर डिस्ट्रिक्ट मिनरल फाउण्डेशन ट्रस्ट (डीएमएफटी) गवर्निंग कीन्सिल की बैठक जिला कलक्टर महोदय क्षी अध्यक्षता में दिनांक 26.09.2023 सायं 3:00 पीएम पर जिला कलैक्ट्रट सभागार में आयोजित की गई। बैठक में का जन्म वर्षास्थत सदस्यगण/अधिकारीगण की सूची परिशिष्ठ-। पर संलग्न है।

सदस्य सचिव द्वारा अध्यक्ष महोदय एवं सभी सदस्यगण/अधिकारीगण का अभिवादन किया गया। सदस्य सचिव द्वारा अध्यक्ष महोदय से अनुमति उपरांत अवगत कराया कि राज्य सरकार की अधिसूचना दिनांक 31.05.2016 से डिस्ट्रिक्ट मिनरल फाण्डेशन ट्रस्ट नियम, 2016 अधिसृचित कर नियम 05 के तहत गवर्निंग कौन्सिल का गठन किया गया। डीएमएफटी नियमों के अनुसार खनिज की रॉयल्टी पर 10 प्रतिशत की दर से डीएमएफटी राशि वसृल करने का प्रावधान है। डीएमएफटी फण्ड का उपयोग प्रधानमंत्री खनिज क्षेत्र कल्याण योजना (PMKKKY) व अन्य राज्य/मारत सरकार की कल्याण योजना के तहत खनन प्रभावित क्षेत्रों एवं प्रभावित व्यक्तियों के कल्याण हेतु किये जाने का व्रावधान है तथा वित्त (मार्गोपाय) विभाग, जयपुर पत्र दिनांक 03.02.2023 के अनुसार जिले के विभिन्न विभागों /क्षेत्रों से सम्बन्धित ऐसे कार्य जो वित्तीय वर्ष 2022-23 की बजट घोषणा में सम्मिलित कार्यों में से वर्णित 28 कार्यों को कराने की सहमित प्रदान की गई।

1. गवर्निंग कौन्सिल (डीएमएफटी) बैठक दिनांक 15.07.2022 के पश्चात् राज्य सरकार द्वारा दिये गये निर्देशों की पालना में जिले के कुल 498 सिलिकोसिस प्रकरणों में (233 सिलिकोसिस पीडित एवं 265 सिलिकोसिस मृतक के वारिसान) डीएमएफर्टी फण्ड से राशि रू 1541.50 लाख का पुनर्भरण निदेशालय विशेष योग्यजन को राजस्थान न्यूमोकोनियोसिस निवारण निधि के पीडी खाता संख्या 18743 कोष कार्यालय शासन सचिवालय जयपुर (ट्रेजडी कोड 2100) के बजट शीर्ष 8443-00-106-00-00 में किया गया। बैटक में सर्वसम्मित से 498 सिलिकोसिस प्रकरणों

में पुनर्भरण की गई राशि रू 1541.50 लाख का अनुमोदन किया गया।

2. माननीय खान मंत्री महोदय की अध्यक्षता में राज्य स्तरीय सशक्त समिति की छठी बैठक तथा स्टेट मिनरल फण्ड की प्रथम बैठक दिनांक 12.01.2021 में भरतपुर से सौंख सडक किमी 0/0 से 19/300 का सुदृढीकरण एवं नवीनीकरण (सडक श्रेणी-एसएच, लम्बाई 19.30 किमी) के निर्माण कार्य हेतु लागत राशि रू 1800.00 लाख की स्टेट मिनरल फण्ड से स्वीकृत कर डीएमएफटी कोष में हस्तान्तरित की गई, जिसका अनुमोदन गवर्निंग काउन्सिल (डीएमएफर्टी) बैठक दिनांक 01.04.2021 में किया जाकर कार्यकारी एजेन्सी अधिशाषी अभियन्ता, सा.नि.वि. डीग को राशि रू 1440.0 लाख हस्तान्तरित की गई। लेकिन कार्य की प्रगति के सम्बन्ध में सी.सी/यू.सी. अप्राप्त है। अध्यक्ष महोदय द्वारा अधिशाषी अभियन्ता, सा.नि.वि. भरतपुर को निर्देशित किया गया कि अधिशाषी अभियन्ता. सा.नि.वि. डींग को अविलम्ब कार्य पूर्ण कराने एवं सी.सी./यू.सी. भिजवाने हेतु अवगत करावे।

3. गर्वानंग कार्जन्सल (डीएमएफटी) बैठक दिनांक 15.07.2022 के क्रम में जारी कार्य स्वीकृतियां परिशिष्ट-॥ के क्रम

संख्या 01, 02, 03 एवं 04 पर अंकित कार्यों को बैठक में सर्वसम्मति से अनुमोदन किया गया।

4. मैनिजिंग कमेटी बैटक दिनांक 08.08.2023 में प्राप्त 19 कार्य प्रस्ताव (परिशिष्ट-गा) निरस्त किये गये. पर बैठक में

विचार विमर्श उपरान्त 19 कार्य प्रस्तावों को सर्वसम्मित से निरस्त किये जाने का निर्णय लिया गया।

5. सदस्य सचिव द्वारा निवेदन किया गया कि कार्यालय महालेखाकार जयपुर के अंकेक्षण दल द्वारा डीएमएफटी ऑडिट र्प्रानवेदन वर्ष 2016-2023 तक के लेखों में मुख्य रूप से आक्षेपित किया गया कि डीएमएफटी फण्ड से कराये जाने वाले कार्यों का अनुमोदन कार्यवार होना चाहिए तथा कार्य पर अतिरिक्त चार्ज यथा प्रोरेटा चार्ज आदि देय नहीं होना चाहिए। बैटक में विस्तृत विचार विमर्श उपरान्त सर्वसम्मति से निर्णय लिया गया कि डीएमएफटी फण्ड से कराये जाने वाले कार्यों की स्वीकृतियों में इस प्रकार की शर्त का उल्लेख किया जावे।

6. सदस्य सचिव द्वारा निवेदन किया गया कि पर्यावरण, वन एवं जलवायु परिवर्तन मंत्रालय भारत सरकार द्वारा पत्र दिनांक 11.03.2022 से जिला भरतपुर की तहसील रूपवास (वर्तमान रूदावल) पहाडपुर ब्लॉक ए और बी के 398.0085 हैक्टेयर के वन भृमि का डायवर्जन इस शर्त के साथ स्वीकृत किया गया कि डीएमएफटी फण्ड में प्राप्त राशि का कम से कम 10 प्रतिशत भाग वृक्षारोपण पर व्यय किया जावेगा तथा वन विभाग द्वारा पर्यवेक्षण किया

जावेगा। भरतपुर डीएमएफटी कोप में विलीय वर्ष 2022-23 में अर्जित डीएमएफटी राशि रू 1384.78 लाख का 10 प्रतिशत राशि रू 138.47 लाख वृक्षारोपण कार्य हेतु आरक्षित किये जाने एवं उप वन संरक्षक भरतपुर को कार्यकारी एजेन्सी नियुक्त करने का बैठक में सर्वसम्मित से निर्णय लिया गया।

7. बैठक में सदस्यगणों से प्राप्त प्रस्तावों (परिशिष्ट-iv) पर विस्तृत चर्चा उपरान्त सर्वसम्मित से निर्णय लिया गया कि वित्त (मार्गोपाय) विभाग, जयपुर पत्र दिनांक 03.02.2023 में वर्णित बजट घोषणा के क्रम में स्वीकृति की कार्यवाही की जावे तथा जो कार्य बजट घोषणाओं में वर्णित नहीं है, उनको वित्त (मार्गोपाय) विभाग, जयपुर को स्वीकृति हेतु भिजवाये जावे।

अंत में बैठक सधन्यवाद सम्पन्न हुई।

(आर.एन.मंगल) सदस्य सचिव (DMFT) एवं खनि अभियन्ता, भरतपुर दिनांक - 04 10 2023
