

Justification for Locating the WSS REZAN in Forest Land.

1.01 Introduction & necessity

The Village Rezan is located at a distance of 45 KMS from District Head quarters Ganderbal in Kangan Constituency along the Left bank of Sindh Nallah. The drinking water being the essential and basic amenity of life and can be discarded next to air. The General Population Comprises of Both the Gujjar and Kashmiri Community and the topography of the area is Semi Hilly. The area is suffering for the want of Potable drinking water supply in present day developing world. In order to resolve the long pending demand of the public a detailed project report was envisaged under the Name WATER SUPPLY SCHEME REZAN and the same was approved by the Government under Languishing projects (JKIDFC) with the approved cost of Rs 130.00 Lacs LUP COD-2339.

It was necessary to construct the said water supply scheme in the vicinity of forest Land due to the reason that habitations in the scope of the Water Supply Scheme are located in the higher contours than the propriety land available. Thus the filtration plant and the other allied structures have to be located at he proposed land, which falls in the forest area of village Rezan. In order to cover all the households of the Rezan. After so many deliberations and surveys to avoid the land in question for the construction, No alternate site other than the site selected has been found feasible for the construction of the water supply structures, due to its topography and the elevation needed to cater the head required to supply water to extreme end of village Rezan. Which is nearly 4KM away from the Place where the site has been selected. There is no feasible land, proprietary or state land available in the vicinity for the construction of the same. It is worth to mention that no green cover is involved in the piece of land selected for the same. All the factors mentioned has forced the undersigned to propose the said site for the construction of the Water Supply Scheme Rezan in the forest land. It is requested that in the Public Interest the Permission may be granted for the construction of the same.
