

PROJECT REPORT

There is a proposal for the **C/o Solid Waste Management Plant at M.C Rohru, Distt. Shimla H.P.** The construction of this project requires 00-25-20 hectare. The purpose of the Solid waste Management Plant is to promote a sense of group ownership as well as provide much needed services to the community as a whole. It has been proposed that when Solid waste Management Plant is built, the Street Committee for that particular section will oversee operations. From the construction of Solid waste Management Plant, it will help to protect the people from various disease and people or the community will only put garbage in that Solid waste Management Plant. From this project the people will not litter garbage anywhere.

Executive Officer,
Municipal Council Rohru,
District Shimla H.P.
