

Answer of EDS Created Regarding Joint Forest Report and FRA,2006

Certificate

1. Joint Forest Report- As per rule, joint forest report is submitted by the DFO after verification in the field of required area. This will be submitted when the DFO will complete the verification and gives a copy to us.

This process will be completed when user agency gets direction for submission of forest proposal in hard copy by the Nodal Officer.

2. Forest Rights Act- We have requested The District Collector, Mangan for FRA Certificate by letter No. 23(7)(A)/Forest/EE/BRPD-I/NS/2018/468, dated- 05-10-2018 and reminder letter No. 23(7)(A)/Forest/EE/BRPD-I/NS/2018/492, dated- 25-10-2018. As this

is a border and restricted area and there is no habitat of any tribal community affecting. So, provisions in FRA, 2006 does not affect any tribals right as per circular of MoEF No. F.No.11-09/98-FC(Pt.), Dt. 28-10-2014.

3. Regarding Muck Points on KML- As you requested to show Muck Points on KML file but it can't be successfully done because the system ask for KML in polygon and in polygon I tried for point and also saved it but in MoEF site it is not acceptable, So when we will get hard copy submission from Nodal Officer then I shall submit the KML file with Muck Points in Hard Copy.
