

Justification for Change in the Extent of Area

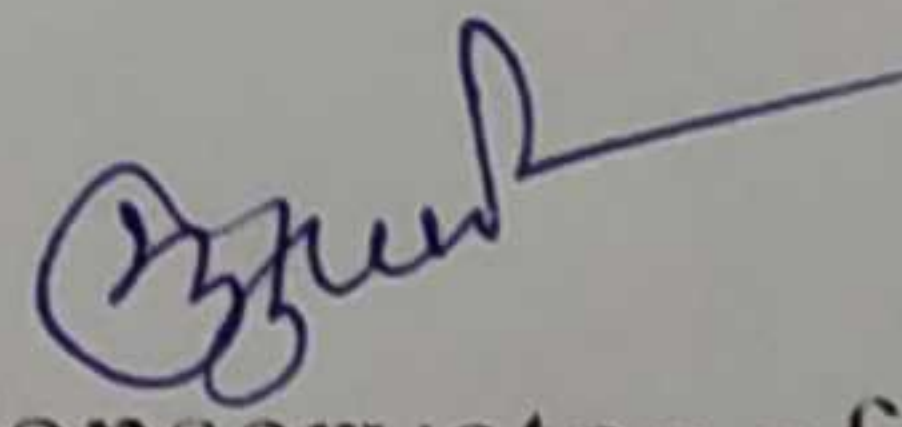

The area mentioned is 136.85 Ha as per the diversion proposal of the User Agency. On examination it is found that the area of this isolated patch of forest falling in Mannur reserve and Manapilly reserve of the Pattikkad Range is in actual 136.8623 Ha as per the survey sketch (65.2953 ha + 71.5670 ha).

Status of the land:

Sl. No.	Reserve Forest	Area (hectare)	Survey number	Village
1.	Manapilly Hill Reserve (Bamboo Plantation)	65.2953	310	Puthur
2.	Mannur Hill Reserve (Cashew Plantation)	71.5670	74 and 243	Kainoor
Total		136.8623		

Hence the proposed area being an isolated patch without any continuity with any forest, it is recommended to consider 136.8623 area as a whole while processing the diversion proposal.
