Sub: Environmental Assessment study - Vellakayam MHEP - Forwarding of Report - reg.

Dear Mr. Sleebachen,

I wish to forward herewith seven copies (hard copies) of the Environmental Assessment Report on Vellakayam Micro Hydro Electric Power Project (90 kW) proposed by you for implementation as an independent power producer. The report has been prepared based on field studies and investigations carried out by the multi-disciplinary team of experts associated with the AGES. The report comprehensively covers the baseline environmental status of the project area and surroundings, identification and evaluation of the potential environmental concerns, and mitigation measures to minimise the adverse impacts during construction and operation of the hydropower project.

The report is submitted, along with soft copies of the documents contained, for your kind perusal and further necessary action.

Thanking you.

Yours sincerely,

S. Mohankumar
