

**Certificate regarding suitability of Compensatory**  
**Afforestation Land**

This is to certify that the Compensatory Afforestation area has been identified by the User Agency in the non-forest land in Survey Field No. 692/6 over an extent of 9.22Ha in No.18 Kammampatti Village of Nallampalli Taluk in Dharmapuri District. This non-forest land has been inspected by me on **28-12-2024**. This non-forest land is already in good growth of vegetations (Ranges from 25% to 35%) such as Acasia amara, Acacia leucophloea, Azadirachta indica, Albezzia lebbeck, Acacia ferruginea etc. This area was already been planted during 1975-1980 under Social forestry Scheme. Thus, Considering the good growth & stock of the plantation planting of targeted seedling is not possible in this non-forest land.

Therefore the Compensatory Afforestation area over 20.00Ha has been identified in the degraded forest at Kavaramalai Extension Reserved Forest of Morappur Range in Dharmapuri Forest Division. The degraded portion of this area has been inspected by me along with Forest Range Officer, Morappur and field staff on **08-01-2025**. The Forest type is dry deciduous with few trees such that Albizia amara, wrightia tinctoria, etc. are found. This Land is suitable for afforestation and it is quite suitable for raising approximately 460Nos of seedlings / Ha. It is also approachable and manageable on protection point of view. For this purpose, the User agency has given necessary undertaking for payment of cost for Compensatory Afforestation as fixed by the Forest Department.

Hence, it is decided to raise the Compensatory Afforestation plantation in the identified degraded forest area at Kavaramalai Extension Reserved Forest of Morappur Range to achieve optimum survival. Hence, this may be accepted.

  
District Forest Officer,  
Dharmapuri Forest Division,  
Dharmapuri.
