Subject: Regarding the construction of PMGSY work Naudkhal mala to kota MR

Respected Sir,

In reference to the your letter number 262 / 12-1 dated 21.01.2021 As asked by DFO office to correct the forest area to 4.702 hec from 7.465 hec in online part I and various documents uploaded in part I.

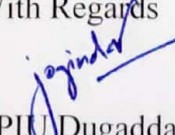

UA would like to inform the correction in the forest area is made where ever it was possible to correct the area like in district wise breakup, component wise breakup ,village wise breakup etc. and in the other documents uploaded like FRA, Justification, CBA etc. correction will be made in case of EDS being raised by NO,RO or after the discussion in REC meeting.

Regarding forest area reduced UA have given undertaking that all the construction work will be done in 5 metre width (as asked in NBWL guidelines) in forest area because of reduced width in forest area, the total area is now reduced to 4.702hec from earlier 7.465 hec.

Please do the needful.

Thanking you

With Regards

PIU Dugadda
