

ਪੰਜਾਬ ਪ੍ਰਦੂਸ਼ਣ ਰੋਕਥਾਮ ਬੋਰਡ
PUNJAB POLLUTION CONTROL BOARD

RO/2021/No. 2875

Dated: 15/06/21

To,

The District Controller,
Department Of Food Civil Supplies And Consumer Affairs,
Jalandhar.

Sub:- **NOC for development of retail outlet at part OF Khasra No. 53//15, 53//16/1/1, at village Alawalpur on Alawalpur Adampur Road, Distt Jalandhar, Punjab.**

Ref:- **Your office letter no. 1836 dated 03.05.2021.**

In reference to above, it is intimated that the M/s DGM (RS) Jalandhar Divisional Office, Indian Oil Corporation Ltd., applicant has requested to this office to issue/grant the NOC for installation of new retail outlet at subject cited location. The proposed site of petrol pump retail outlet was visited by officers of this office on 11.06.2021 and it was seen that the proposed site is located on village Alawalpur on Alawalpur Adampur Road, Distt Jalandhar. No demarcation of the boundary of the proposed new retail outlet has been made at site. There is no residential area, school or hospital (10 beds and above) within a radial distance of 50 meters from the provided site. No high tension line is passing over the proposed site. The proposed site is meeting with sitting guidelines for new retail outlet framed by CPCB Delhi on 07.01.2020.

Therefore, in view of above, it is recommended that the NOC for subject cited new retail outlet at the proposed location may be given to the applicant subject to the following conditions :

1. The project proponent shall comply with the guidelines as framed by CPCB Delhi on 7th January 2020 for setting up of new petrol pump in compliance of Hon'ble NGT order dated January 18, 2019 in OA no. 86/219: Gyanprakash @ Pappu Singh vs Gol & Ors. (Copy attached)
2. The project proponent shall obtain necessary permission/ approval from the concerned Departments/ Authorities its own level, if required, if any in future at site.
3. The project proponent shall provide proper canopy and adequate stack height with DG set, if anstalled.
4. The project proponent shall provide adequate arrangement for the disposal and treatment of domestic effluent to be generated at site.

DA:-As above
