East & North Garo Hills (T) Division, Williamnagar

---

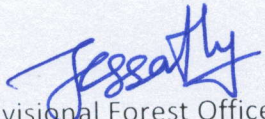

**Certificate for Suitability of Area for Compensatory Afforestation**

**Proposal No:** FP/ML/OFC/50391/2020

**Name of Project:** Optical Fibre Cable laying from Samanda to Nengkhra via Williamnagar through Rongrenggiri Reserve Forest

**Area (in Ha):** 0.333 Ha

The proposed area for compensatory afforestation with respect to the forest land proposed for diversion under Forest Conservation Act, 1980 in Rongrenggre Reserved Forest for Laying of Optical Fibre Cable by MUKAND SYSTEMS AND NETWORKING PVT LTD has been selected in 1 patch of 0.6 Ha (600 Saplings) as Compensatory Afforestation of Road side plantation in the Compartment No.3,4,5,7A,8,9,10 of Rongrenggre Reserve Forest near the forest land that is being diverted. In order to reduce the biotic pressure as well as to improve the Forest cover and Aesthetic value, this area is proposed for compensatory afforestation through artificial regeneration of native miscellaneous and fruiting species.
