

DETAILED NOTE ON THE PROJECT

Jeori rest house to Nawara Nawaru area under Rampur Tehsil is a remote area hitherto unconnected by road. The villagers have to take uphill journey to reach their villages. It is also very problematic for the villages to transport essential commodities to the village in the absence of a road link especially in view of the rugged terrain and steep slopes. It is also the policy of the Government to connect all Panchayats by road. Hence road connection Jeori rest house to Nawara Nawaru has been mooted by constructing a road from link road to Nawara Nawaru village. The total length of the road is 2.341 kms. This road is being constructed to provide motor link to the village Nawara Nawaru. The road will cater to the needs of population of about 400 and will give a boost to the local economy as the road link will facilitate the transportation of agricultural and horticultural produce like Apple, Almonds, Potatoes and other cereal crops to the markets. Besides this, the motor road will be helpful for the patients in case of medical emergencies. The project will generate about 3000 mandays directly during the construction phase besides generating indirect opportunities of employment as result of increased economic activity in the area. For the construction of this road 00-53-98 ha. of forest land is required to be diverted for which this case under Forest Conservation Act, 1980 has been prepared.
