NOTES

Heights and Contours have not been shown.
Angular height, 45, represents the approximate height in metres, between the top and bottom of the slope.
The kilometre scale numbers along roads and canals are shown in start type, e.g., 1/2 whereas milestone numbers are shown in upright type, e.g., 15.
Tanks, shown by a symbol, are usually shown with water from top to bottom.
Numerous well-heads throughout the sheet, only the important ones have been shown.
Unimproved roads and cart-tracks are generally not shown in dry season. Permission to use those along canals is reserved from the irrigation authorities.
Places shown on the map with a star are the Kailas Nadi, are fordable for the remaining part of the year.
The area adjoining the Darda or Gora River is liable to change owing to continual fluctuation in the course of the river.
