| 1 | Specific recommendations of the DFO with reason for approval of the project. | Construction of New railway line will effectively transportation of goods and passengers. It would reduce distance between indore – jablpur by 82 kms. This will facilitate not only passengers but also goods carrying trains and will lead to boost in the economy of the country and the region. The proposed New railway line will cater to new area and will connect kannod, sanaliya, chhan, khategaon, Narsullahganj, and salkanpur to railway map, this area is reach in food grains, thus apart from providing rail connectivity to people, petroleum, food grain and doc freight movement will take place overall population benefited by the project. |
