

Site Inspection Report
(Proposed Jamua-Gawan 132 KV Transmission Line of
Transmission Circle, Deoghar)

Site inspection was done by the undersigned on 02.07.2024 in the presence of forest officials & officials of Transmission Projects, Transmission Circle, Deoghar. The proposed site for diversion constitutes 54.407 ha. of forest land, out of which 41.232 ha. is notified protected forest(PF) & 13.175 is Jungle-Jhari land. The forest land proposed for diversion is located in Jamua Range of Giridih West Forest Division and Gawan Range of Giridih East Forest Division. The total length of project is 20.151 kms in which in Giridih West Forest Division it is 3.007 kms and Giridih East Forest Division it is 17.143 kms. No rare endangered species of flora and fauna is noticed in this area although occasional elephant movement has been observed by the villagers in the area. The predominant vegetation found in the proposed forest land for diversion are Sal, Palas, Mahua, Jamun, Karanj etc. The area is affected with Soil erosion and requires treatment. No protected area/archeological heritage site/ defence establishment or other important monuments are located in the concerned area.
