Further, the proposed diversion area for the project 0.1714 Ha. (Length: 4284.57 m X 0.40m width) is found correct. The density of vegetation of adjacent forest is 0.40 (Open forests). The general Flora existing in forest area is Teak, Chennangi, Billudu, Nemalinara, Moduga, Rela etc., The local Fauna includes Spotted deer,

Neelgai, Sambar, Chinkara, Porcupine etc.,

There is no scope of soil erosion in the proposed area of diversion. The proposed area of diversion falls inside the reserved forests only (zero meters).

The proposed area of diversion for forest land for laying of the Optical Fiber Cable, which is unavoidable and the area required is barest minimum for the project. The proposed area **does not form part of**

any National Park, Wildlife Sanctuary, Biosphere reserve, Tiger Reserve 
Elephant Corridor etc., and in any Eco-Sensitive Zone.

There are no rare/endangered/unique species of flora and fauna found in the area. There are **no protected archaeological/heritage site/defense establishment or any other important monument** in the located area.

Further it is noticed that, the proposed diversion of land is passing through notified RF areas. Hence no RoFR certificate is required.

There is no work in violation of Forest (Conservation) Act, 1980 has been carried out by the User Agency.

Hence, the project proposal for laying of Optical Fiber to an extent of 0.1714 ha in Jagital Division in favour M/s. Telesonic Networks Limited is recommended.
