

PART - IV

(To be filled in by the Nodal Officer or Principal Chief Conservator of Forests or Head of Forest Department.)

17. Detailed opinion and specific recommendation of the State Forest Department for acceptance or otherwise of the proposal with remarks. (While giving opinion the adverse comments made by the concerned Conservator of Forests or Deputy Conservator of Forests should be categorically reviewed and critically commented upon).

The proposal pertains to construction of the Hydrological Observatory Station near Manda River at Satmile in the Chimabangshi Reserve Forest under Dainadubi Range of East and North Garo Hills Territorial Division. It is an activity under National Hydrology Project, Govt. of India. The data collected from the observation station will be used for water resources planning and for flood prediction. The area being diverted is only 0.01 Ha, with no tree felling. I therefore, concur to the views of Divisional Forests Officer (T) and Conservator of Forests (T) for diversion of the forest land for the aforementioned purpose.

Hence the proposal is recommended
