Compensatory Afforestation Suitability Certificate

This is to be certified that, the following 32.00 Hectares degraded forest land in single patches has been proposed for Compensatory Afforestation under Range- Ramanujganj, Forest Division – Balrampur for diversion of 15.831 Hectare of forest land in favor of Executive Engineer, EHT(Const.) Dn. CSPTCL Korba for Construction of LILO of 132 KV Vishrampur – Pratappur – Balrampur line from loc.no. 42/0 to proposed 132 KV Substation Rajpur Transmission line have been inspected and it is found that the proposed CA land is suitable for Compensatory Afforestation. At present CA land has growth of eupatorium, lantana and scrubs etc.

SN	Patch No.	Division	Range	Compartment No.	Compartment Rakaba (in Hectares)	Proposed Area (in Hectares)
01.	Patch-1	Balrampur	Ramanujganj	PF-3486	396.450	32.00
Grand Total						32.00

At present the above proposed CA land is free from encroachment and encumbrances.

I have personally inspected the sites.
