L. Details of land identified for Compensatory Afforestation	<p>Shape of the proposed CA land block which has an elongated side branch (about 490 meter long and 50 meter wide) appears to be not Compact, <u>unless this side branch length is adjoining to an existing</u> (notified) forest. Please note that, as per FC Guidelines, the non- forest land identified for CA purpose needs to be adjacent to an existing (notified) forest area from forest protection and management point of view and should also be fit for taking up CA planting. The Certificate dated 03-01-2020 is subject to further confirmations with regard to the eligibility.</p>	<p>It is ensured that the proposed CA land is adjacent to an existing (notified) forest area. An elongated side branch is also adjoining to an existing (notified) forest.</p> <p>Suitability certificate for this identified CA land is obtained from DCF Ramanagara and uploaded for your perusal.</p>
