

RECOMMENDATION REPORT OF DEPUTY CONSERVATOR OF FORESTS HALIYAL

GOA-TAMNAR TRANSMISSION LINE FC PROJECT

On 18-10-2023, I along with Assistant Conservator of Forests, Alnavar Sub-Division, Range Forest Officer, Tinaighat and Jagalpete Range and field staff and officials of Goa Tamnar Transmission Line Project visited the field to inspect the proposed forest area for diversion of forest land for the project "Additional 400 KV feed to Goa State, additional system for power evacuation from generation project pooled at Raigarh (Tamnar) pool".

The proposed forest for diversion for diversion i.e., 64.845 ha for Goa – Tamnar 400 KV D/C Quad transmission line (LILO Project) in favour of Goa-Tamnar Transmission Projects Limited falls under in Tinaighat Range (31.528 ha) and Jagalpete Range (33.317 ha) falls under Haliyal Division. The Proposed area comes under Eco-class-I and is having 35445 no. of trees growth (Estimated as per sample plot enumeration). Protected archaeological/heritage site /Defence establishments or other important monuments are not located at the proposed site.

Hence after considering above observations, the diversion of 64.845 ha. of forest area in Haliyal Division (31.528 ha in Tinaighat range and 33.317 ha in Jagalpete Range) may be considered on recovery of NPV for diversion of forest land as per Forest Conservation act 1980.

Deputy Conservator of Forests

Haliyal Division, Haliyal
