

Justification for Wildlife Management Plan

The area proposed for diversion is rich in faunal diversity and Hyena, Jackal, Nilgai, Deer, Mongoose, Wild Cat, Wild Boar, Common Langur etc. can be sighted frequently. In recent times frequent/regular reports of Human-Elephant conflicts due to elephant herd is coming from the area. The elephant herd is roaming in and around the areas of Ara, Chamatu, Chetar, Seregara, Nagra, Pundurlawa,,Jarri, Basiya, Gerenja, Jogiyadih, Semarsot etc. villages continuously. There is a genuine need of Wildlife Management Plan to mitigate the disturbance expected to arise from this project considering the continuous presence of elephant herd and other mentioned animals in the area.

Therefore the entries of Part-II-8(i) requites change as given below:-

Part-II

8(i) Details of wildlife present in and around the forest land proposed for diversion:

Elephant, Hyena, Jackal, Nilgai, Deer, Mongoose, Wild Cat, Wild Boar, Common Langur etc.

8(ii) Whether forms part of national park, wildlife sanctuary, biosphere reserve, tiger reserve, elephant corridor, wildlife migration corridor etc. : No
