

TO WHOM SO EVER IT MAY CONCERN

This is to certify that the forest land proposed for diversion of 5(five) Ha. area within Rengma Reserve Forest in the name of **Harupani Sand Gravel mahal** is located beyond aerial distance of 25 Kilometers from the nearby Nambor Doigrung Wildlife Sanctuary. In between the project and the Wildlife Sanctuary, there are huge revenue villages and hence this mahal area will not have any impact on Wildlife Sanctuary.
