Brief Note on Vulnerability for Forest Area to erosion:-

3. Forest area of Umred - Karandala WLS is comes under watershed of the Maru River which flows in "Gosekhurd Dam" reservoir Cutting of trees on proposed forest area of Umred - Karandala WLS for this project will definately accelerate soil erosion due to sudden opening of the covered area. While actual starting of work, vehicular and human movement also accelerate erosion and ultimate eroded material flows and rest in Gosekhurd Reservoir.

Chief Conservator of Forest & Field Director,
Pench Tiger Reserve, Maharashtra
