With reference to your officer's request for the detailed list of 2183 roads in Himachal Pradesh identified under violation of the Forest (Conservation) Act 1980. It is submitted that the said list was prepared as per the records received from the Head office and already forwarded to your office in complete form by the Public works Department.

Since the size of the PDF file exceeded 20 MB, it could not be accepted in online Portal. Therefore, the file was compressed and re-sent. Subsequently, for your convenience, the list was also forwarded in Zone -wise PDF files separately.

It is respectfully clarified that not only an abstract, but the complete and detailed list of all 2183 roads as received from the Head office, has been shared with your office.

You are therefore requested to kindly re-examine the records at your end. In case any additional information or clarification is required, the same may please be intimated so that necessary action can be taken at the earliest.

Your's faithfully
