

TO WHOM SO EVER IT MAY CONCERN

JPDCL is committed to avoid cutting of forest trees in 11KV lines & pole spotting shall be done in such a way that sufficient electrical clearance is available from forest trees and it is brought to your kind information that 2m clearance is sufficient from safety point of view and existing 11KV lines are running smoothly with 2m clearance & there is no need to cut trees in stretch of 7m right of way.
