Lr.No: SE/GCC/CBE/DB/D1/F.Somayamapalayam/ D ^{A392} / 14/ dt 15.12.2014,

Sir,

SUB: TANTRANSCO – GCC/Coimbatore – Establishment of 110/22 – 11 KV Sub Station at the foot hills of Maruthamalai – Laying of 110KV line on the Kanuvai Hills – Justification for the no alternative land – reg.

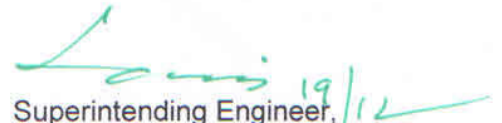

Tamilnadu Transmission Corporation has established a 110/ 22-11 KV Substation at Somayampalayam in between Bharathiyar University and Kanuvai village to cater the load growth in and around areas, nearby and not commissioned due to non-completion of 110KV line.

The 110KV EHT line for the above Substation has been proposed to the take off near Kasinanjegoundenpudur (K.N.G.Pudur) and the tower line has to be laid along the Sanganoor Pallam till Somaianoor and from there it will be taken to the Maruthamalai side by crossing the Kanuvai Hills (Bolampatty Block III & Thadagam Reserve Forest).

There is no alternative route for taking 110KV EHT line from K.N.G.Pudur to Maruthamalai, other than the routing 110KV line through the forest land since the entire stretch is fully habitated and come under Coimbatore Corporation Limit.

Hence the only feasible 110KV line route available for the proposed Substation is along the Reserve Forest (Bolampatty Block III & Thadagam Reserve Forest).

For information please.

Superintending Engineer, 19/12
General Construction Circle,
Coimbatore.
