

1) Details of para no. M.3 (i), M.4 (i) & M.6 (i)

The detailed prospecting to assess mineral reserves in the lease has been shown as "NO". this is because of the fact that prospecting and assessment of mineral reserve is done by CMPDIL and project report is also prepared by CMPDIL as per guideline and power inscribed by Ministry Of Coal. In this project these activities have been completed way back when permission was not required under Forest Conservation Act' 1980.
