

LAND SUITABILITY CERTIFICATE FOR PROPOSED CA LAND

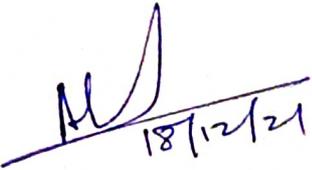

(TO BE FURNISHED BY CONCERNED DFO)

Project: Construction of 132 kV D/C Pare HEP to Lakhimpur Transmission line.

Forest area proposed for diversion under Lakhimpur Forest Division: 10.381 hac

This is to certify that 20.8 hac (Double of proposed forest area for diversion) of degraded forest land identified near Baliyan Mising Gaon, Rampur in Ranga RF of Harmuty Forest Range under Lakhimpur Forest Division which is proposed for Compensatory afforestation against the diversion of 10.381 hac of forest land by Vapi II-North Lakhimpur Transmission Ltd. is *suitable for plantation*. The area was earlier very greener with good forest cover.

Therefore to revive the area back to its original forest cover and improve the habitat for wild elephants of the area, the land is selected for raising site specific species endemic to the forest area by way of compensatory afforestation in tune with management of forest and wildlife of the area.
