

Detailed note on Project

M/s. Chettinad Morimura Semiconductor Material Pvt., Ltd. is 100% export oriented unit having collaboration with M/s Morimura Bros. Inc., Tokyo for manufacturing high purity Silica powder required for Electronic Industries.

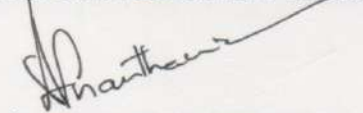

M/s. Chettinad Morimura Semiconductor Material Pvt. Ltd., is having 3 manufacturing units in the following places

1. Kazhipattur village, Chengalpet District, Tamil Nadu.
2. A.Ravivalsa Village, Bhogapuram (M), Vizianagaram District, Andhra Pradesh
3. Eligatta Village, Rangareddy District, Telangana.

The proposals for grant of Quarry lease to extract Quartz & Feldspar minerals over an extent of 4.41 Hectares in Sy. No. 553/P of Chaganam Village & RF belonging to Venkatagiri Range, Nellore Forest Division was applied by M/s Chettinad Morimura Semiconductor Material Pvt., Ltd. Old Mahabalipuram Road, Kazhipatur village, Chengalpat District, Tamil Nadu state.

There is a huge demand for Low Chemical Impurities Quartz & Feldspar in Export market. The Low Chemical Impurities Quartz & good quality Feldspar available in this applied area required to produce high purity silica powder and grits for semiconductor purpose. Existing Quarry leases of Quartz & Feldspar in SPSR Nellore District could not meet the Quality requirements in market. In order to meet our raw material requirement, the Company wishes to utilize the material available in this quarry lease applied area at Chaganam RF.

For Chettinad Morimura Semiconductor Material Pvt., Ltd.
