

## Site inspection report

For the purpose of establishing retail outlet (Petrol Pump) as a dealership of BPCL alongside Koilwar-Babura road in Bhojpur District, a proposal for diversion of 0.021 Hectare of forest land has been submitted by Sri Rajesh Kumar Singh under Forest (Conservation) Act 1980. I have inspected the site on 03-07-2020. As per the proposal, the forest land to be diverted is situated along Koilwar-Babura road. For entry and exit to the proposed outlet, the forest land is required to be diverted. The area of proposed forest land to be diverted has been calculated on the proposed entry and exit to the retail outlet side. For this work only 0.021 Hectare of forest land will be diverted, the calculation of which is attached as annexure-A of the proposal. During this diversion, no trees are required to be felled.

During inspection no endangered/unique species of flora and fauna has been found. There is no protected archaeological/heritage site/defence establishment is located near the site and also no National park/wildlife sanctuary is situated in this area.
