C5-4134/2014.

Inspection Report of S. Gopalakrishnan IFS, Chief Conservator of Forests High Range Circle, Kottayam dated 15.10.2014.

Inspected the area along with Range Officer and Staff on 15.10.14. The Kerala Water Authority has requisitioned for 10 cents of land adjacent to the Microwave tower. Being the top most point, it is convenient for them to construct a ground level water tank so that they can cater to the needs of large area. The land in question supports pure grasses and the soil depth is very shallow. Only pezhu stunted trees (*Crea arborea*) having less than 30 cm in girth is available in the area. The site is ideal for water tank and there is no harm in handing over the area to Water Authority.
