

## **RECOMMENDATION**

From the perusal of the proposal and the documents attached to, it appears that the proposed forest land of 431.59 hectare is required by the user agency for the excavation/mining of coal which is the chief source of electricity/energy in the country and therefore, 431.59 ha of proposed forest land is recommended for diversion under the provision of Forest (Conservation) Act 1980 and the Forest (Conservation) Rules, 2003.

**(S.P. SUMAN)**
