

PART-III

(To be filled up by concerned Conservator of Forests)

14. Whether Site, where the forest land involved is located has been inspected by concerned Conservator of Forests (Yes/No). If yes, the date of inspection & observation made in form of inspection note to be enclosed :-

Yes, The site was inspected on 07.10.2016.

The proposed site is a undulating hilly terrain with mixed deciduous forest. The predominant tree species found during inspection were *Lagerstroemia spp*, *Butea spp*, *Bombax spp*, *Shorea robusta*, *Diospyrus melanoxylon etc*.

During inspection and verification of the document it is observed that :-

1. Part of this proposed project is washery consistiting of 19.0 ha will be constructed in the previously diverted forest area of 288.26 ha under Konar OCP.
2. The conveyer belt, road and other such activities proposed to be constructed will require besides proposed 7.40 ha. of forest land, additional forest land previously diverted under 288.26 ha. Konar OCP.
3. Over OB dump area of the previously diverted forest land (288.26 ha. Konar OCP.) will be used for dumping rejects.

15. Whether the concerned Conservator of Forests agree with the information given in Part-II and the recommendations of Deputy Conservator of Forest :-

Yes.

16. Specific recommendation of concerned Conservator of Forests for acceptance of otherwise of the proposal with detailed reasons :-

The proposal submitted by the user agency for power plant and washery is not site specific activity. But to avoid the transportation of the waste the proposal has been submitted in the forest land in the vicinity of the mine. As this part of Govindpur and Bermo forests are continuous and non fragmented, adequate non forest land is not available in the vicinity of the mine.
