

SITE INSPECTION REPORT

The proposal for diversion of forest land for Panisagar – Aizawl Natural Gas Pipeline will cover 34.9963 ha of forest land to be diverted passing through two Circles, Central Circle and Northern Circle in which 4.7305 ha falls within Central Circle under the territorial jurisdiction of Aizawl Forest Division.

The site inspection of the proposed site for diversion was conducted on 13.10.2022 along with two officials of the UA. The proposed alignment will pass through Tlawng RRF which are more of an open forest and will cover around 10 meters only and will be laid alongside of the existing road. The area in question is devoid of trees and will not involve felling of trees.

The purpose of the project proposal is unavoidable and barest minimum required. There is no archeological/heritage site, defence establishment or any other important monument or protected area in the proposed area as well. No endangered species of flora and fauna was found in the project area.

Place: Aizawl
