

SITE INSPECTION REPORT
(Project: Proposal for diversion of 5.42 hect of Forest land in respect
of Lankaijuri Stone mahal under Nagaon Division, Nagaon)

The proposed mahal (MCA) site of Lankaijuri stone mahal/quarry was inspected by the undersigned on 13/09/2022 along with RO, Kathiatoli Range under Nagaon division and their frontline staff and representative of the User Agency (Lankaijuri Stone mahal). The area proposed for diversion is 5.42 hect. of forest land inside Doboka RF under Nagaon Division, Nagaon. There is no record of rare/ endangered species of flora & fauna are found in the area proposed for diversion since it is a degraded hillock but presence of wild animals including elephant cannot be ruled out in surrounding forest areas. No any protected archeological/heritage site/defence establishment or any other important monument was noticed in the proposed forest area during the visit. During the period of inspection it is noticed that the proposed area falls within the notified Kaziranga Karbi Anglong Elephant Reserve. But the proposed area is a hill top barren area and will not cause much impact if it is diverted and also the proposed area is around 1 km (approx) away from the NH-27. The requirement of the forest land proposed by the User Agency is unavoidable and barest minimum. The proposed area is recommended for diversion with a suggestion to take sufficient precautionary measures to protect/save Wildlife & Environment in light of the guidelines issued by the MoEF & CC & F.C.Act,1980.
