

Part-III

(To be filled by the concerned Conservator of Forest)

14. Whether the site where the forest land involved is located has been inspected by concerned Conservator of Forest (Yes/No) if yes, the date of inspection and observation made in form of inspection note to be enclosed.	<p>Yes</p> <p>Date of Inspection 27.04.2015 and 29.05.2016</p> <p>Inspection Note: - Enclosed.</p>
15. Whether the concerned Conservator of Forest agrees with the information given in part-II and recommendation of Deputy Conservator of Forests.	Yes.
16. Specific recommendation of concerned Conservator of Forests for acceptance or otherwise the proposal with detailed reasons.	<p>The project for laying of 132 KV Double Circuit Transmission Line from Simdega to Monoharpur is in the interest of the State for meeting requirement of power essential for the growth and development of the state. The land category proposed to be diverted (3.70 ha) is Jungle Jhad and is in small patches along the proposed laying of transmission line bearing no forest cover or only open scrub. Some patches have sparse and scattered population of Sal and miscellaneous species. The proposed land is not prone to soil erosion as elaborated by DCF Porahat Forest Division. This project is recommended for acceptance.</p>

**Inspection Note on the construction of 132 KV D/C Simdega-Manoharpur
Line through west Singhbhum District.**

Date of Inspection: - 27.04.2015 and 29.05.2016

Observations:-

The proposed construction of 132 KV D/C Simdega- Manoharpur line through West Singhbhum district involves diversion of Jungle Jhad land (3.70 ha) in Porahat Forest Division. Site Inspection of various plots along the line of transmission revealed the proposed land involved does not bear any mature forest vegetation. While some plots have no standing trees or very or few scattered trees, the other plots bear only scrub vegetation. The tract involved is flat to slightly undulating and is not prone to soil erosion. Bare minimum vegetation will be cleared as undertaken by the user agency (13.5 ha on either side of the central line). As such the project is in the interest of the state in terms of power requirement which is essential for the growth and development of West Singhbhum District in particular and the State of Jharkhand in general.
