

## Recommendation

*Construction of 400 KV Punatsangchu-Alipurduar D/C Power Transmission line is very much required for evacuating power to be generated by Punatsangchu-I project of Bhutan to India. Currently proposed route is the shortest one involving least forest area of 16.39 ha. Forest diversion, which is minimum required.*

*Hence the diversion of 16.39 ha forest area is hereby recommended.*
