

Inspection Report

77

The site for construction of 132 KV D/C Transmission line from Itkhori to Chatra for diversion of 55.217 Ha. Forest land (In Chatra South Forest Division- Protected Forest 26.814 ha. + GM (JJ)- 26.865 Ha., total – 53.679 Ha. & in Chatra North Forest Division- Protected forest. 0.695 Ha.+ GM (JJ)- 0.843 Ha. , total 1.538 ha.) was inspected on 04.06.2022 with DGM, Hazaribag Shri Shiv Shankar Prasad Singh, Senior Manager, Hazaribag Division, JUSNL, Shri Ajaykant Jha, Range Forest Officer Itkhori (Lawalong) Shri Jagarnath Kumar and other officers and staffs of JUSL and forest department . The soil along the proposed Transmission line is highly vulnerable to soil erosion. So proper soil conservation measures should be taken. The proposal is meant for construction and development of transmission system and also to mitigate the actual shortage of power due to inadequate transmission infrastructure in the area. A large no. Of people will be benefited by this project. In view of the aforesaid facts, the diversion proposal for proposal for 55.217 ha. Forest land for construction of 132 KV D/C Itkhori- Chatra Transmission line is recommended.
