Dated Aizawl the 16th April, 2020

RECOMMENDATION

CONSTRUCTION OF 132 KV S/C WEST PHAILING- MARPARA TRANSMISSION LINE

The proposed area has been traversed by the undersigned more than a couple of times in the past and is well known by me. That due to the urgency of the case and the prevailing situation of 'Lockdown' due to pandemic COVID-19, actual site inspection is not possible currently. As the site has been inspected by concerned field officers their "Site Inspection Report" is found to be reliable and satisfactory for which the proposed area is recommended for further processing.
