

Application under Forest Conservation Act 1980 for diversion of forest for providing safe drinking water to Kodassery, Pariyaram & Athirappilly Panchayaths of Chalakudy Division

Inspection report of Divisional Forest Officer, Chalakudy Division

Inspected the proposed project site on 02.07.2019 along with staff and Assistant Engineer of Water Authority. The proposal area is a part of notified Koddassery reserve forest, which was leased out to Plantation Corporation of Kerala. It is located in the right bank of Chalakudy river near Vettilapara of pariyaram range. The total area requested is 0.1143 Ha for the construction of pump house, well, transformer and 450 MM pumping main. The proposed project is intended to provide adequate drinking water to the entire population of Kodassery, Athirappilly and Pariyaram Panchayaths of Chalakudy Taluk. There are no endangered fauna and flora present in the area. No trees need to be removed for this project.

Place : Chalakudy
Date :15.07.2019
