

Site Inspection Report

A proposal has been received by this office from Electrical Executive Engineer, Transmission Division, Dhanbad for diversion of 4.04 ha forest land for the construction of 132/33 KV Grid Sub Station at Mayapur (Peterbar). The site inspection of the land involved in the proposal has been done by undersigned on 02.06.2019 and it was found that the land is suitable for the Construction of Gird Substation. The parches of vegetation shows that the land required by user agency was Miscellaneous forest which includes GMJJ land only. During site inspection, it has been found that 125 trees (as per enclosed enumeration list) are present on the said land which need to be removed. Here it is also important to mention that the applied area is to prone soil erosion.

No protected archaeological/heritage site/defence establishment or any other important monuments were located on the said project area.

No rare/endangered unique species of flora and fauna were found during the inspection in the diverted area for the said project.

Divisional Forest Officer,
Bokaro Forest Division, Bokaro.
