

The proposal is for diversion of 0.07 ha of land for the electrification of Cheenikkala SC Colony in Anchal Range. No felling of trees is required for this diversion. It is seen that the proposed work is for laying LT Sph OH line for the total electrification of Cheenikkala SC Colony in Kulathupuzha Grama Panchayath under total electrification scheme by Kerala Government. This diversion is essential for the electrification of the colony. The area does not have any rare / endangered / threatened species and not coming under protected area. The requirement of forest land as proposed by the user agency is unavoidable and bare minimum. No felling of trees is required for the diversion. The project is recommended for approval.

I. Sidheeq, IFS
Divisional Forest Officer, Punalur
