Letter No. :- 597

date :- 10/05/2023

Proposal No.-FP/JH/SCH/152705/2022

Godda College Godda

Site Inspection Report

The forest area mentioned below is involved in diversion of the above project.

Name of PPF	Thana No	Plot No	Nature of Forest	Area (in Ha)
Jamua	516	906	Private	3.67
Punsiya	523	02	Protected	5.72
Murlidih	521	140/138/722	Forest (PPF)	3.05
G. Total-				12.44

The sites mentioned above were inspected on 01.03.2023 and it was found that the area is an open forest with a canopy density of 0.2. The vegetation is dominated by bamboo growth and other miscellaneous trees like dalbergia sissoo, butea monosperma, ficus spp, eucalyptus spp etc. The common fauna present in the area are Monkey, Rabbit, Porcupine, Cobra, birds & butterfly etc. This area is also having some pre existing structures of the college since 1954. A temporary helipad was also seen to be marked on the open land and college authorities have informed that the said marking on the ground for helipad is purely temporary and this area will also be used for building educational infrastructure.
