Letter No. :- 598

date :- 10/05/2023

Proposal No.-FP/JH/SCH/152705/2022

Godda College Godda

Specific recommendations:-

The Godda College is an important educational institution of the State Govt. in Godda district, Jharkhand where poor and tribal students are getting education since August 1954. The total forest area involved in the diversion of the above project is 12.44 Ha. During the site inspection it was found that the area is an open forest with canopy density of 0.2 along with few patches of bambusa bamboo. The project involves construction of much needed educational buildings for the higher education. In the construction of building rain water harvesting structure may be insisted upon at project cost. It is also recommended that the College should maintain greenery by regular plantation in the campus and college may establish an Eco-Club of college students and faculty to promote awareness among students and society. The college may also run some forestry and environmental courses for promoting environmental education and awareness. Hence the aforesaid expansion and developmental project of Godda College, Godda is recommended in the public interest.
